T = Tied for that place.

*Your school gets one point per win. At the end of the year the top 18 records for your school will count to your team points (you could hypothetically max out at 36 points for your school)

**This is the school's winning percentage. This award is a new award created to help smaller schools who do well win awards based on the percentage of debates they win as opposed to overall wins.

***Our most popular addition last year, this will reward individual speakers. Points are total points and ties are broken by ranks received in a round. We will give speaker awards at the January tournament and again at the end of the year. The end of the year award will be for the whole season, but we will drop the highest points for the year and the lowest points (to avoid one round artificially helping/hurting a participant)
