NOTES:														
1) Evening College Programs are not listed, since those students rarely participate in Varsity Sports. Selected Grad programs listed if a recent student-athlete is among those majors.														
2) Pre-pharmacy curriculum for transfer students allows for 2 physical activity courses while pre-pharmacy curriculum for Samford students allows for none (see p. 244 of 2012-13 catalog). However, although the Professional Pharmacy curriculum is even more restrictive (allowing NONE), PHED credits won't be manually excluded once student is in PMD-PHRD as these courses are automatically excluded and are not calculated into program credits or GPA.														
3) When more than one type of Varsity Sport is taken, only ONE instance can be counted towards the standard Gen Ed Requirement of 2 PE's. The other PE MUST be a non-varsity PHED activity course. (Updated 8/13/09) In cases where multiple Varsity Sports credits exist, a maximum of two fall under General Electives, in ANY combination (2 of one sport or 1 each of two different sports), but only IF the student's major allows for General Electives.														
4) Students who take a combination of Varsity Sports and regular PHED activity courses risk losing some of these extra credits. No more than 2 credits of ANY PHED activity course combination (PHED 101-153) can be applied to the General Electives of any degree. Special Note: Any PHED activity course can be taken twice, but beginning 2012-13, a single varsity sport can be repeated only ONCE, for a maximum of TWO credits. Also beginning 2012-13, ALL varsity sports are graded pass/fail, while all non-varsity activity courses are given standard letter grades.														
5) VS-PE min/max totals above are NOT restricted to Samford courses. Physical activity courses transferred from other colleges may count towards the allowable minimum of VS-PE credits.														
6) For all non-degree seeking, pre-professional programs, 128 hrs will be used to assess degree completion. However, as soon as the student-athlete declares a major, the min hrs req'd for that program will be used in this assessment.														
COMMENTS: (see also red flagged cells in Excel file)														
Total Req'd Credits in Degree Prog 09-10, etc. - Total credits vary each yr, but only crds for 09-10 & later are shown (only 5 catalog yrs max will be displayed). See older catalogs for total program credits in earlier years.														
#Gen Ed-Physical Activity courses (VS-PE) allowed - Must be 2 DIFFERENT physical activity courses and 1 MUST be NON-VARSITY. (Some majors have more specific PHED restrictions.)														
#Varsity Sports allowed in Gen Ed - In most cases, 1 Varsity Sport is the usual max; in some cases, 0 is the max.														
#Gen Electives (Total, any discipline) - Some General Electives are notated as "directed by advisor," but will be assumed to allow Varsity Sports/PHED activity courses.														
#Varsity Sports allowed in General Electives (if prog allows for Gen Electives) - 2 is the max if Gen Electives allowed; 0 is the max if NO Gen Electives allowed														
MAX # Varsity Sports allowed OVERALL - Counts Gen Ed + Gen Electives (allowing max 2 Varsity Sports in Gen Electives, if prog allows for Gen Electives)
