

**BACHELOR OF SCIENCE Degree Completion Program
Youth Studies Major**

NAME _____ **STUDENT ID** _____ **DATE** _____

Applicants with an associate of arts or an associate of science from an Alabama community college will be able to use their degree to satisfy all general education requirements for the program. Regardless of how many credits were earned during the course of the two-year degree, students will still be required to complete 68 credit hours for the award of their baccalaureate degree from Samford.

The Bachelor of Science with a major in Youth Studies provides students with an interdisciplinary view into the cultures and dynamics of young people with an emphasis on the development of strategies for working effectively with youth in a variety of settings. Sociological principles provide the overall guiding framework for the program.

The calculations of progress towards graduation on this evaluation must be approved by the Student Records Office and, therefore, are considered unofficial. The student is responsible for monitoring and meeting all requirements for graduation. However, this may be used as a guide to approximate academic progress. Refer to the course descriptions in the university catalog to determine if prerequisites are required for any given course.
