Mission

The mission of the Orlean Bullard Beeson School of Education and Professional Studies is to nurture, develop, and challenge students, faculty, and staff academically, professionally, personally, and spiritually by providing the highest quality Christian learning environment to promote leaders who will positively influence and shape society.

Vision

The vision of the Orlean Bullard Beeson School of Education and Professional Studies is to be the most prestigious school of education and professional studies in the United States, serving as the premier institution for intellectual and spiritual development through the dissemination of knowledge and ideas that will positively impact local, national, and global communities.

The School of Education and Professional Studies seeks to demonstrate the following values:

Professionalism:

Respect - We will treat all with respect and fairness, contributing toward greater understanding of our interdependence.

Faith - We value our Christian heritage and bring it to bear in our daily actions, and we humbly strive to be faithful to and consistent with these principles.

Honesty - We will promote honesty and integrity to all associated with this school.

Collegiality - We create a supportive, caring, and empathetic atmosphere, cooperating fully to maximize one another's knowledge, skills, and experience in a ceaseless pursuit of excellence.

Education:

Scholarship - We promote intellectual rigor, thoughtful consideration, thorough preparation, depth, effort, and personal responsibility.

Distinctiveness - We will maintain Samford's approach to quality education, cognizant of the University's mission to develop the mind, the body, and the spirit.

Service - We commit ourselves and our talents to serve God and humankind. We will be examples of generosity—of spirit and caring—and good stewards of our resources.

Learning - We will demonstrate that learning never ends, through our commitment to continual renewal and improvement.

Exercise Science and Sports Medicine

Faculty

Alan P. Jung, Chair, Associate Professor
 James B. Angel, Professor
 Donna L. Dunaway, Professor
 Patricia Hart Terry, Professor
 Christopher A. Gillespie, Assistant Professor
 Ralph R. Gold Jr., Assistant Professor
 Robert W. Hensarling, Jr., Assistant Professor
 John K. Petrella, Assistant Professor
 Patrice R. Donnelly, Instructor
 Allison J. Jackson, Instructor
 Donna Seibels, Clinical Coordinator, Instructor

Mission

The mission of the Department of Exercise Science and Sports Medicine is to nurture and prepare students to positively contribute to the health and well-being of members of society and to instill in all students, faculty, and staff, a commitment to lifetime fitness and positive health. An exemplary education provided in a Christian context, by individuals with a demonstrated commitment to excellence in scholarship, service and teaching provide the mechanism to fulfill this mission.

Vision

The vision of the Department of Exercise Science and Sports Medicine is to challenge students continually to improve the health and well-being of society by exhibiting the highest standards of quality in teaching, scholarship and service; and to assume the leadership role among undergraduate academic programs in our field in meeting the challenges of preventive medicine and health care.

Values

Five fundamental values form the foundation of the Department of Exercise Science and Sports Medicine (ESSM) culture.

Collaboration - The phrase "to act as a unit" forms the basis of the ESSM department. This value ensures that all students will benefit from the collective wisdom of a team of education professionals.

Quality - A commitment to quality has created the ESSM department's legacy of achievement and innovation in curricular and programmatic areas resulting in high achievement for students and faculty. The ESSM department has taken a leadership role in cultivating intellectual curiosity of students and establishing standards of excellence for exercise science related majors

Integrity - Adherence to scientific, professional, and personal integrity are the ethical cornerstones that underlie our desire to do the following: mentor students; conduct clinical research investigations; educate students and allied health professionals; guide the fiscal and administrative management of the ESSM department.

Compassion - A commitment to compassion includes a respect for our students' and their families' needs for emotional support during their time at Samford. The ESSM department believes in providing the highest level of service to its students and families.

Commitment - As an institution, the ESSM department recognizes its responsibilities to the community in which it resides, to the students it services, to Samford University and to the individuals in leadership who oversee the management of its resources.

Undergraduate Programs and Requirements

Majors

Athletic Training
 Exercise Science (Pre-Physical Therapy)
 Fitness and Health Promotion
 Nutrition and Dietetics
 Sport Administration
 Sports Medicine

Minor

Nutrition and Dietetics

The Department of Exercise Science and Sports Medicine offers majors in athletic training (ATHT), exercise science (pre-physical therapy) (EXSC), fitness and health promotion (FHPR), nutrition and dietetics (NTDT), sport administration (SPAD), and sports medicine (SPMD) leading to a bachelor of science degree. See department chair for details. The department also offers a minor in nutrition and dietetics.

A minimum grade of C- must be achieved in all ESSM prefix courses within each major and minor.

University Core Curriculum and General Education Requirements

See University Core Curriculum and General Education Requirements in the Howard College of Arts and Sciences introductory pages for a list of required courses. General Education Requirements are detailed in the individual ESSM degree tables, with the exception of the physical activity requirement. Consult p. 185 for a list of applicable activity courses.

Problem-Based Learning

The long-range goal of the problem-based learning (PBL) methodology is the acquisition and retention of greater amounts of information to be used in solving real world problems utilizing critical-thinking skills necessary for success in today's rapidly changing world. Through the implementation of PBL, it is the hope of the faculty of the Department of Exercise Science and Sports Medicine (ESSM) to develop dynamic group interaction skills, critical-thinking skills, and a desire in the students to be actively involved in their learning throughout the course, the remainder of their undergraduate education, and ultimately throughout their careers. The problems will assist students in making the important connections between classroom concepts, principles, theories, and their application to the real world environment. The ESSM faculty has developed PBL throughout the curriculum of each departmental major.

Athletic Training Major

Athletic training is designed to prepare students in the "major tasks" comprising the role of the certified athletic trainer. These tasks include the following: 1) prevention of athletic injuries; 2) evaluation, recognition, and immediate care of athletic injuries; 3) rehabilitation and reconditioning of athletic injuries; 4) health care administration; and 5) professional development and responsibility.

The program is offered as a nonteaching major containing, in addition to athletic training studies, courses in nutrition and psychology. The program was developed to prepare students to meet the Board of Certification requirements.

The Samford University Athletic Training Education Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The program has met the nationally-recognized Standards for Entry-Level Athletic Training Education that were established with support of the following sponsoring organizations: the American Academy of Family Physicians, the American Academy of Pediatrics, the American Orthopaedic Society for Sports Medicine, and the National Athletic Trainer's Association, Inc.

Admission Requirements and Procedures

1. Accepted for admission to Samford University.
2. Make a written request for an Athletic Training Education Program application packet to: Director of Athletic Training Education, Samford University, Birmingham, Alabama 35229.
3. Complete an application and obtain three letters of recommendation, three reference forms, and official transcripts from all high schools and higher education institutions attended. Submit materials to: Director of Athletic Training Education, Samford University, Birmingham, Alabama 35229.

4. Priority consideration will be given to prospective students who meet the following academic standards:
 - a. Achieve a composite score of 21 on the ACT or 900 on the SAT.
 - b. Graduate from high school with a GPA of 3.00 or above.
 - c. Transfer to Samford University from another institution with a GPA of 3.00 or above.
5. Approved by the Athletic Training Admissions Committee (ATAC). The ATAC reviews all application packets and makes a report to the director of athletic training education regarding eligibility for admission to the program.
6. After eligibility status has been approved, the applicant must interview with the ATAC.
7. Must demonstrate technical standards for admission. (See Technical Standards for Admission box on p. 178.)
8. In order to be admitted to the Athletic Training Education Program a student must have completed a course in CPR (Cardiopulmonary Resuscitation) and AED (Automatic Electronic Defibrillator). Documentation of completion of this course must be included with application materials.
9. All students entering the Athletic Training Education Program must have reviewed the OSHA/Blood Borne Pathogens Guidelines included in the application packet. Upon review of the materials, the student must sign the statement indicating that they have reviewed and understand the materials. During athletic training student orientation a quiz regarding this material will be given after a brief review of the materials.
10. All students entering the Athletic Training Education Program must be immunized for Hepatitis B. Proof of this vaccination must be provided in the application materials.
11. Prospective students should sign the confidentiality statement included with the application materials. This statement informs the students that they may see or hear medical information regarding the health and welfare of a student athlete. Athletic training students are not allowed to discuss medical information with anyone other than the athletic training and sports medicine staff.
12. Upon completion of all interviews, recommendations are made by the ATAC concerning admission to the program. In order for the student to be admitted, there must be an available position so that the clinical instructor-to-student ratio guidelines are not violated. Students selected for admission into the program will be notified in writing by the director of athletic training education.
13. Any student who, in the opinion of the ATAC, is judged to have characteristics that are deemed to be undesirable for the profession of athletic training may, with proper review, be denied admission to the athletic training program.
14. Applicants who do not meet the stated criteria may be considered on an individual basis for conditional status admission. The ATAC will stipulate the terms of the conditional status admission in writing to the applicant. Students admitted under conditional status must carefully follow the stipulations set forth by the ATAC. If the student is unable to follow the said stipulation, he/she will be dismissed from the program.

Transfer Policy Information

1. Transfers are considered to be students who come to Samford University from other schools or who are currently enrolled at Samford but change their major to athletic training.
2. Transfer students must follow the guidelines of the University to be admitted to the program. This information may be found on p. 16 of this catalog.
3. A student who is transferring will be given priority consideration if he/she has a 3.00 GPA from the institution that they formerly attended.
4. Transfer students will follow a similar progression as a sophomore in the program. Attempts will be made to maintain course sequencing as is possible pursuant to the classes offered across the curriculum.

Retention Requirements

1. Athletic training students must maintain academic requirements set forth by Samford University. In addition, each student must maintain an overall GPA of 2.00. A student enrolled in the "teaching" program must meet the minimum standards of the School of Education and Professional Studies Program.
2. Should a student's GPA fall below the required level, he/she will be placed on probation by the director of athletic training education. Should a student be placed on probation, he/she must make satisfactory progress within two

semesters. Should he/she be unable to do so, the student will be dismissed from the program. In the event that the student's GPA rises to the acceptable level after being dismissed from the program, the application process is the same as for any other student.

3. Students making less than a C- in a required athletic training course will be required to repeat the course. These courses are: ESSM 232, 274, 275, 276, 277, 300, 345, 374, 375, 376, 450, 451, 473, 476, 477, 478, 485, 486, 498, and 499.
4. A student may repeat only one required course (see list above) in which a grade of less than C was received. Failure to make at least a C in two required courses or one course twice will result in dismissal from the program.
5. Any student who, in the opinion of the ATAC, is judged to have developed characteristics that are deemed to be undesirable for the profession of athletic training may, with proper review, be dismissed from the program.
6. A student must be able to demonstrate technical standards to continue in the program.
7. Athletic training students are required to submit a current CPR/AED certification card at the beginning of each school year. The certification must be current through the end of that school year.
8. Students will attend a basic review of OSHA guidelines and complete a quiz regarding the information discussed in this review.
9. All athletic training students must abide by the disciplinary rules of Samford. Any student not abiding by the rules will be subject to University discipline.
10. All athletic training students are subject to random drug testing in accordance with Department of Athletics rules. All discipline will be carried out in the appropriate manner as specified and defined in the Department of Athletics drug testing policy and procedures statement.
11. Appeals regarding any of the retention rules and requirements will be heard by the director of athletic training education, the chair of the Department of Exercise Science and Sports Medicine, and the dean of the Orlean Bullard Beeson School of Education and Professional Studies. All appeals must be made in writing and submitted to the director of athletic training education.

Admission Scoring System	
INFORMATION	
<i>(20 Points Needed for Unconditional Acceptance)</i>	
Application	Scoring: 3 = excellent 2 = good 1 = average 0 = poor
Three (3) Reference Forms and/or Letters of Recommendation	Scoring: 3 = excellent 2 = good 1 = average 0 = poor (Reference #1)
	Scoring: 3 = excellent 2 = good 1 = average 0 = poor (Reference #2)
	Scoring: 3 = excellent 2 = good 1 = average 0 = poor (Reference #3)
Application Essay	Scoring: 3 = excellent 2 = good 1 = average 0 = poor
Interview	Scoring: 3 = excellent 2 = good 1 = average 0 = poor
Grade Point Average	Scoring: 3 = 3.50-4.00 2 = 3.00-3.49 1 = 2.50-2.99 0 = less than 2.50
ACT or SAT Equivalent	Scoring: 3 = 25+ 2 = 22-24 1 = 20-21 0 = below 20
CPR/AED Training	Scoring: 1 = YES 0 = NO
Hepatitis B Vaccination	Scoring: 1 = YES 0 = NO
Technical Standards Agreement	Scoring: 1 = YES 0 = NO
Confidentiality Agreement	Scoring: 1 = YES 0 = NO

Technical Standards for Admission to the Athletic Training Education Program

NOTE: A formal version of the following is included in the admissions materials for the Athletic Training Education Program. The official form requires the student's signature.

The Athletic Training Education Program at Samford University is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training Education Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency. The following abilities and expectations must be met by all students admitted to the Athletic Training Educational Program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation, the student will not be admitted to the program.

Compliance with the program's technical standards does not guarantee a student's eligibility for the BOC certification exam.

Candidates for selection to the Athletic Training Educational Program must demonstrate:

1. The mental capacity to assimilate, analyze, synthesize, integrate concepts, and problem-solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
2. Sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely, and efficiently use equipment and materials during the assessment and treatment of patients.
3. The ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment at a level consistent with competent professional practice.
4. The ability to record the physical examination results and a treatment plan clearly and accurately.
5. The capacity to maintain composure and continue to function well during periods of high stress.
6. The perseverance, diligence, and commitment to complete the athletic training education program as outlined and sequenced.
7. Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
8. Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Candidates for selection to the athletic training education program will be required to verify they understand and meet these technical standards or that they believe that, with certain accommodations, they can meet the standards.

The advisor for students with disabilities will evaluate a student who states he/she could meet the program's technical standards with accommodation and confirm that the stated condition qualifies under applicable laws.

If a student states he/she can meet the technical standards with accommodation, then the University will determine whether it agrees that the student can meet the technical standards with reasonable accommodation; this includes a review whether the accommodations requested are reasonable, taking into account whether accommodation would jeopardize clinician/patient safety, or the education process of the student or the institution, including coursework, clinical experiences, and internships deemed essential to graduation.

I certify that I have read and understand the technical standards for selection listed above, and I believe to the best of my knowledge that I meet each of these standards without accommodation. I understand that if I am unable to meet these standards I will not be admitted into the program.

Alternative statement for students requesting accommodations:

I certify that I have read and understand the technical standards for selection listed above, and I believe to the best of my knowledge that I can meet each of these standards with certain accommodations. I will contact the advisor for students with disabilities to determine what accommodations may be available. I understand that if I am unable to meet these standards with or without accommodations, I will not be admitted into the program.

Exercise Science Major

The purpose of the exercise science major is to prepare students for the entry-level master's or doctoral degree program in physical therapy. An interdisciplinary approach is applied to this major, including classes in nutrition, psychology, biology, physics, chemistry, athletic training, and exercise science. The courses contained within the major meet or exceed the prerequisites for the majority of physical therapy schools. Students are encouraged to volunteer service in all aspects of physical therapy prior to and during their undergraduate studies. Academic advisors monitor student progress to maximize acceptance into physical therapy schools. Students must have a minimum GPA of 2.5 for admission to the program.

Fitness and Health Promotion Major

This major is designed to prepare students for employment in strength and conditioning, corporate wellness, fitness and wellness (e.g., YMCA), and cardiac rehabilitation. Academic training will be complemented by laboratory work and practicums in fitness-related programs. The coursework and practicums are designed to prepare students for the American College of Sports Medicine certification examination as a Health Fitness Specialist (HFS). Students must have a minimum GPA of 2.5 for admission to the program.

Nutrition and Dietetics Major

Dietetics is a dynamic profession offering many different opportunities for practice. Today's dietetic professionals pursue careers in health care, education, and research. They work in business, industry, public relations, and mass media. Their services are also used in government agencies, restaurant management, corporate and sports wellness programs, food companies, and private practice. Samford's NTD program is approved by the American Dietetic Association. Students seeking a degree in NTD will be reviewed before their junior year (upon completion of 60 credits of college work). A minimum cumulative GPA of 2.75 to 3.00 is recommended to continue since entrance into a dietetic internship or AP4 program following graduation usually requires a 3.00 GPA. Students transferring into the program will be evaluated on their SAT/ACT score, as well as their cumulative GPA.

Sport Administration Major

The sport administration major is designed to prepare students for employment in corporate and/or educational sport administration settings. Graduates may find employment in such positions as professional/collegiate level sport administration, high school athletic directors, or pursue an advanced degree in the discipline. The coursework and field experiences culminate with a semester long externship. Students must have a minimum GPA of 2.5 for admission to the program.

Sports Medicine Major

This major is the department's pre-medicine program and is an alternative to the traditional pre-medical programs. It will provide valuable training for future physicians in areas of prevention such as nutrition, exercise, fitness, and weight management. This information is generally not offered in medical schools, and a firm foundation can be achieved through this prevention-oriented program. Students will be assigned a departmental academic advisor in addition to the health professions advisor who will guide their progress toward medical school or other medically-based professional school (e.g., dental school). Students will gain competencies in exercise stress testing, maximal oxygen uptake testing, body composition, computerized-diet analysis, and exercise prescription. An interdisciplinary approach including nutrition, biology, mathematics, chemistry, athletic training, and exercise science is included in the major. Students must have a minimum GPA of 2.5 for admission to the program.

Nutrition and Dietetics Minor

Courses

EXERCISE SCIENCE & SPORTS MEDICINE

ESSM 110 Principles of Food Preparation (4)

Introduction to food buying, food preparation, food storage, and dietary planning in accordance with scientific principles of nutrition. LEC 2, LAB 2. Offered: Fall, Spring, and Jan Term.

ESSM 141 Introduction to ESSM (2)

Introductory course designed to expose all departmental majors to their specific area of study and to provide experiences in selecting and utilizing appropriate technology. Includes survey of each discipline relative to purpose, history and development, career opportunities, and relationship to other disciplines in the department. Prereq: Must be an ESSM major. Offered: Fall and Spring.

ESSM 143-145 Core Program for Majors and Minors (2 each course)

Introduction to a variety of sports and activities. Emphasis on both skill acquisition and teaching techniques. Prereq: ESSM 141. Offered: On rotation.

ESSM 201 Instructional Strategies for Elementary School Physical Educators (4)

Study of the program of physical education activities for the elementary school. Includes methods and procedures for conducting such a program. Prereq: ESSM 141. Offered: Spring.

ESSM 202 Physical Education for Elementary Schools (2)

See course description for ESSM 201. Offered: Spring and Jan Term.

ESSM 210 Introduction to Nutrition and Dietetics (2)

Survey of career opportunities in the health field and introduction to computer software pertinent to future career-related opportunities. Offered: Fall.

ESSM 216 Personal Nutrition (4)

Introduction to nutrition for personal lifestyle choices. Includes study of digestion, absorption, and metabolism of nutrients. Recent advancements in nutrition, application to meal planning, and strategies for selecting nutritionally balanced foods are also presented. Offered: Fall and Spring.

ESSM 231 Personal and Community Health (4)

Study of the basic fundamentals of general health. Emphasis on such topical areas as personal fitness, nutrition, mental and emotional health, and community and environmental health. Prereq: ESSM 141.

ESSM 232 Prevention and Care of Athletic Injuries (2)

Study of safety and preventive measures and treatment of injuries incurred in athletic contests or practices. Prereq: ESSM 141.

ESSM 241 First Aid and CPR (2)

Study of the principles of first aid, CPR, and automated external defibrillators (AED). Instruction leads to American Red Cross Certification in first aid, CPR, and AED. Prereq: ESSM 141.

ESSM 274 Practicum in Athletic Training I (1)

Practical study of taping, protective equipment, sports safety training, and prevention and care techniques. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Offered: Spring.

ESSM 275 Practicum in Athletic Training II (1)

Practical study of therapeutic modality skills and techniques commonly used in the athletic training setting. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Offered: Fall.

ESSM 276 Therapeutic Modalities in Sports Medicine (4)

Introduction to the proper use of therapeutic modalities. Emphasis on practical experience and hands-on operation. Prereq: ESSM 141. Offered: Fall.

ESSM 277 Practicum in Athletic Training III (1)

Practical study of rehabilitation skills and techniques commonly used in the athletic training setting. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Prereq: ESSM 141. Offered: Spring.

ESSM 300 Rehabilitation Techniques in Sports Medicine (4)

Classroom and practical study in appropriate use of therapeutic rehabilitation and techniques of athletic injuries. Includes scientific/physiological rationales, selection criteria, indications/contradictions, and clinical applications. Prereq: ESSM 141. Offered: Spring.

ESSM 301 Foundations of Nutrition (4)

Study of fundamental principles of normal nutrition and their relation to the health and physical fitness of individuals. Offered: Fall.

ESSM 310 Lifecycle Nutrition (4)

Rapidly moving study of nutrition in the lifecycle from infancy through advancing years. Emphasis on application of the nutritional requirements and guidelines in each age group to dietary planning and intake. Prereq: ESSM 216. Offered: Spring.

ESSM 312 Food, Culture, and Society (4)

Examination of how, what, when, where, and why people eat. Cultural differences related to food provision, production, and consumption will be evaluated. Relationships of history, geography, climate, customs, social status, health, economy, religion, and politics to food and society also explored. Offered: Fall and Jan Term.

ESSM 321 Motor Development (Non-Majors) (1-2)

Study of perceptual motor development and psychomotor development in early childhood. Includes exposure to a broad range of motor/cognitive disabilities. For non-ESSM majors.

ESSM 322 Lifespan Motor Development (Majors) (4)

Study of motor development across the lifespan, including the impact of physiological, sociological, and psychological developmental trends. Exposure to a broad range of motor/cognitive disabilities is included. Includes laboratory. For ESSM majors only. Prereq: ESSM 141.

ESSM 330 Externship in Physical Therapy (4)

Observational externship in an outpatient physical therapy setting. Designed to provide the student with an understanding of physical therapy in an ambulatory outpatient facility. Prereq: Thirty (30) volunteer hours in a physical therapy setting. Prereq: ESSM 141. Offered: Fall.

ESSM 336 Fundamental Sports Skills: Acquisition and Analysis (4)

Opportunity to acquire the knowledge and skill necessary for analysis and teaching of sports skills. Prereq: ESSM 141. Offered: Spring.

ESSM 337 Strategies for Program Planning and Implementation (4)

Examination of the practical knowledge of research techniques and research findings in fitness and positive health. Uses hands-on investigation. Emphasis on following research guidelines, reading and evaluating, published literature, and instructor-guided physiological studies. Prereq: ESSM 141. Offered: Spring.

ESSM 339 Exercise for Special Populations (4)

Survey of proper physiological assessment, analysis of test data, and exercise programming for disease states (e.g., cardiovascular disease, diabetes, obesity, hypertension) and other special populations, including older adults, adolescents, and athletes. Prereq: ESSM 141. Offered: Fall.

ESSM 340 Practicum in Fitness and Health Promotion (2-4)

Practical externship experience in various areas of fitness management. Includes exercise leader, fitness programming, and marketing/finance. Prereq: ESSM 141.

ESSM 345 Medical Aspects of Exercise and Sport (2)

Study of the recognition, evaluation, management, and prevention of the most common medical conditions that affect exercise and sport participation. Emphasis will be placed on differentiating medical conditions. Emphasis will also be placed on the appropriate history, physical exam, indications for referral, and treatment for each condition. Prereqs: ESSM 141 and ESSM 232; BIOL 217 and BIOL 218. Offered: Spring.

ESSM 350 Community Nutrition Education (4)

Study of community-based programs with nutrition components, including work-site wellness, health promotion, schools, day-care programs, and health clinics. Programs in these areas include nutrition screening and assessment, feeding programs and assistance, plus health promotion and disease prevention. Emphasis on development of counseling skills and use of resources to take into account cultural differences and to develop nutrition education plans, goals, and programs for community groups. Prereq: ESSM 216. Offered: Fall.

ESSM 351 Coaching Principles and Administration (3)

Insight into important areas of coaching not associated with the techniques of coaching. Includes sports nutrition, sports psychology, sports administration, weight training, and developmental stages. Prereq: ESSM 141. Offered: Fall.

ESSM 353 Sport Governance (3)

Critical analysis and research of policies and governance of various sport organizations at differing levels of competition, including high school, college and professional sport. Combines lecture, case study and classroom discussion. Prereq: ESSM 141 and permission of the instructor. Offered: Summer and Jan Term.

ESSM 355 Legal Aspects of Sport (3)

Explores the various legal principles applicable to the sport industry. Contemporary society is becoming increasingly litigious resulting in a dramatic increase in the number of lawsuits. This trend is evident within the realm of sport and physical activity. Emphasis will be placed on legal issues related to sport administration. Prereq: ESSM 141. Offered: Fall.

ESSM 360 Curriculum Design and Instructional Strategies for Physical Education (4)

Overview of the curriculum, content, instructional methods, and management of middle and high school health, and physical education classrooms. Prereqs: ESSM 141, 201, 322, and 336. Offered: Fall.

ESSM 362-363 Coaching Techniques (2 each course)

Opportunity to learn and develop techniques based on the latest theories of coaching. Combines theory in the classroom with application on the playing field/court. Prereq: ESSM 141. Prereq or Co-req: ESSM 351.

ESSM 365 Contemporary Issues in Sport (3)

Study of contemporary issues related to athletics and sport administration. Through case studies and problem-based learning, students will research and critically analyze selected issues related to sport. Settings will include interscholastic, intercollegiate, and recreational and youth sport settings. Prereq: ESSM 141. Offered: Spring.

ESSM 370 Health Professions Internship (2 or 4)

Understanding and insight into the duties of a physician, or other health care profession, in a medical setting. May be repeated for a maximum of 6 credits. Prereq: ESSM 141. Offered: Fall, Jan Term, and Summer 1.

ESSM 371 Nutrition Externship (2-12)

In-depth study and practical experience in foods, nutrition and/or dietetics. Students may work in a variety of professional settings including clinical settings with dietetic preceptors, food service, food management, food production, nutritional counseling, etc. May be repeated three times for a maximum of 12 credits. Prereqs: ESSM 110, 216, 301, 310, and permission of the instructor. Offered: Every semester.

ESSM 374 Administration of Athletic Training Program (1)

Understanding of the planning, coordinating, and supervision of all administrative components of an athletic training program. Includes high school, college, or professional organizations. Prereq: ESSM 141. Offered: Spring.

ESSM 375 Practicum in Athletic Training IV (1)

Practical study in evaluation of lower-body athletic injuries commonly sustained by the competitive athlete. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education Prereq: ESSM 141. Offered: Fall.

ESSM 376 Practicum in Athletic Training V (1)

Practical study in evaluation of lower-body athletic injuries commonly sustained by the competitive athlete. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Prereq: ESSM 141. Offered: Spring.

ESSM 380 Sport Marketing and Finance (3)

Provides students with an overview of the major marketing and financial issues facing the sport industry. Content will focus on developing basic knowledge and understanding of sport marketing and promotion, specifically the history of sport marketing, evaluation of sport marketing programs, sources of revenue, and public versus private sector funding in sports. Prereq: ESSM 141. Offered: Fall.

ESSM 404 Student Teaching Physical Education, P-12 (12)

Supervised field internship for prospective teachers of elementary and secondary students, grades P-12. Prereqs: ESSM 141 and 360; EDUC 213, 221, 311, and 323.

ESSM 405 Advanced Research Techniques in Exercise Science (2)

Externship designed to give the student in-depth practical experience in various areas of clinical and applied research techniques. Research techniques will be taught in an exercise-based research laboratory environment. At completion of externship, students will have gained practical knowledge and skills needed to function with competence in a laboratory-based research setting. Students will work with research personnel for 100 hours. Course is repeatable, for a maximum of 4 credits. Prereqs: ESSM 141 and junior or senior status. Offered: Summer.

ESSM 410 Medical Nutrition Therapy I (4)

Study of dietary deficiencies as they relate to disease. Emphasis on those diseases which may be improved and/or corrected through diet. Prereqs: CHEM 215 and CHEM 216; ESSM 216 or ESSM 301; and ESSM 310, 350, and 477. Offered: Fall.

ESSM 411 Medical Nutrition Therapy II (4)

Study of the dietary deficiencies that relate to disease and the nutritional health of the patient in the hospital or community setting. Students learn through case studies. Emphasis on development of nutrition care plans for selected patients and disease states. Preventive dietary and health practices are also discussed. Prereqs: ESSM 301 and ESSM 410. Offered: Spring.

ESSM 412 Quantity Food Production and Management (4)

Study of planning, preparation, and presentation of meals for groups larger than 50. Includes catering, banquets, cafeteria, and hospital food service. Special consideration is given to buying, menu developing, producing, and serving food. Also includes visits to local hospitals and restaurant food services. LEC&LAB: 5. Prereq: ESSM 110. Offered: Fall.

ESSM 413 Food Service Organization and Management (4)

Study of equipment, personnel, and cost in the management of large quantity food services. Includes guest professional lectures and site visits to local food service operations. LEC&LAB: 5. Prereq: ESSM 412. Offered: Spring.

ESSM 414 Experimental Foods (4)

Scientific approach to the factors involved in preparation of standard food products. Experimental methods and techniques are employed in planning, preparation, and evaluation of food products. LEC&LAB: 4. Prereq: ESSM 110. Offered: Spring.

ESSM 416 Advanced Nutrition and Metabolism (4)

Advanced study of nutrients and their absorption, metabolism, and excretion by the body. Emphasis on nutritional excess and deficiencies, and the effects these have on human tissues. Prereqs: CHEM 215, 216, and 345. Offered: Spring.

ESSM 420 Tests and Measurements in Exercise Science & Sports Medicine (4)

Investigation of the basic concepts of measurement and evaluation as applied to the field of exercise science. Prereqs: ESSM 141; MATH 210 or equivalent. Offered: Fall and Summer 1.

ESSM 433 Organization and Administration of Health and Physical Education (3)

Practical study of organizational and administrative theories and principles in exercise-related professions. Prereq: ESSM 141. Offered Fall.

ESSM 450 Practicum in Athletic Training VI (1)

Practical study in the evaluation of upper body athletic injuries and injuries to the spine commonly sustained by the competitive athlete. Exploration of administrative skills commonly needed by certified athletic trainers. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Prereqs: ESSM 141, 274, 275, 277, 375, and 376. Offered: Fall.

ESSM 451 Practicum in Athletic Training VII (1)

Practical study in psychosocial intervention, health care administration, and nutritional skills commonly needed by the certified athletic trainer. Review of selected educational competencies and proficiencies instructed and evaluated during the athletic training students' educational career. Emphasis on meeting the competencies and proficiencies as set forth by the Commission on Accreditation of Athletic Training Education. Prereq: ESSM 141.

ESSM 472 Problems and Practical Experiences in Physical Education (3)

Concentrated study in the areas of health or physical education, designed to meet the particular needs and interests of individual students.

ESSM 473 Exercise Physiology (4)

Study of the effects of exercise on the major systems of the human body, including cardiorespiratory, neuromuscular, glandular, and digestive. Includes examination of other effects influencing human exercise, such as climate, altitude, and ergogenic aids. Prereqs: BIOL 217 and BIOL 218, or equivalent; and ESSM 141.

ESSM 474 Problems and Practical Experiences in Health or Physical Education I (4)

Concentrated study in the areas of health or physical education, designed to meet the particular needs and interests of individual students.

ESSM 475 Problems and Practical Experiences in Health or Physical Education II (6)

Concentrated study in the areas of health or physical education, designed to meet the particular needs and interests of individual students.

ESSM 476 Anatomy and Kinesiology (4)

Analysis of the musculoskeletal anatomy of the human body. Emphasis on body movements and the action of muscles in human activity. Prereqs: BIOL 217 and BIOL 218, or equivalent; ESSM 141.

ESSM 477 Sports Nutrition (4)

Introduction to the functions of nutrients, their availability in foods, and factors affecting their utilization. Emphasis on food and fluid planning for proper athletic performance and the selecting and planning of adequate diets for good health. Prereq: ESSM 141.

ESSM 478 Sport Psychology (4)

Overview of essential/psychological considerations involved in athletic participation, athletic training, and in coaching athletic teams. Prereqs: ESSM 141; PSYC 101 or equivalent. Offered: Spring.

ESSM 479 Exercise Testing and Prescription (4)

Classroom and practical study of a variety of exercise testing techniques used to determine cardiorespiratory fitness, muscular fitness, body composition, flexibility, and blood pressure in healthy populations. Primary focus includes selection of appropriate tests, proper administration of tests, and accurate interpretation of test results. Further study will include use of testing results to determine appropriate exercise prescriptions for improving health and fitness. Prereq/Co-req: ESSM 473. Offered: Spring.

ESSM 485 Recognition & Evaluation of Athletic Injuries: Lower Body (4)

Practical and classroom study in clinical evaluation of lower body injuries and illnesses commonly sustained by the competitive athlete. Emphasis on proper evaluation for the purpose of (1) administering proper first aid and emergency care and (2) making appropriate referrals to physicians for diagnosis and medical treatment. Prereqs: ESSM 141 and ESSM 476. Offered: Fall.

ESSM 486 Recognition & Evaluation of Athletic Injuries: Upper Body (4)

Practical and classroom study in clinical evaluation of upper body injuries and illnesses commonly sustained by the competitive athlete. Emphasis on proper evaluation for the purpose of (1) administering proper first aid and emergency care and (2) making appropriate referrals to physicians for diagnosis and medical treatment. Prereqs: ESSM 141 and ESSM 485. Offered: Spring.

ESSM 490 Advanced Exercise Physiology (4)

Integration of classroom work with laboratory exercises. Includes exposure to laboratory equipment used in physiological research. Prereqs: ESSM 141 and ESSM 473. Offered: Fall.

ESSM 491 Nutrition Seminar (2)

Capstone course for nutrition and dietetics majors, covering professional issues and responsibilities, including Dietetic Internship application. Should be taken in the final semester of the senior year. Offered: Spring.

ESSM 493 Problems in Nutrition (1-4)

Individual topic in nutrition selected by the student. Topic may be one not examined in depth in a regular course or research the student needs to complete to meet foundational knowledge and skills required by an ADA Didactic Program in Dietetics. Offered: See advisor.

ESSM 495 Fitness and Health Promotion Externship (8 or 12)

Practical externship experience in one of various areas of fitness and health promotion. Settings and/or experiences may include wellness coordinator/director, fitness leader, exercise programming, cardiac rehabilitation, strength and conditioning, fitness management, research assistant, and/or corporate wellness. Prereqs: ESSM 479, 490, 498, and senior status. Offered: Fall, Spring, and Summer.

ESSM 497 Externship in Sport Administration (12)

Professional externship designed to be the culmination of the sport administration major's practical experiences. This course will place the student in a professional setting to gain practical experience in the sport administration environment. Prereq or Co-req: ESSM 498. Offered: Fall and Spring.

ESSM 498 Research Methods (2)

Mastery of content and ability to bridge knowledge and application through development of a research proposal. Provides opportunity to compare "actual" with "expected" student outcomes so that alignment can be improved between expectations, actual results, and educational programs. Prereq: ESSM 141. Offered: Fall and Spring.

ESSM 499 Senior Seminar in Exercise Science & Sports Medicine (2)

Mastery of content and demonstration of ability to apply skills through completion of a comprehensive experimental research project. Includes preparation of results for publication, presentation of results in a professional setting, and a comprehensive examination. Prereqs: ESSM 141 and ESSM 498. Offered: Fall and Spring.

PHYSICAL EDUCATION (CORE CURRICULUM)

UCFH 120 Concepts of Fitness and Health (2)

Physical fitness course, with emphasis on exercises that develop cardiorespiratory, muscular, and flexibility fitness. All aspects of fitness, such as principles of aerobic fitness, nutrition, flexibility, strength training, common fitness injuries, and weight control and body composition are discussed and applied. Students with physical disabilities may consult the ESSM department chair for special consideration.

PHYSICAL ACTIVITY PROGRAM

Students enrolled in the Air Force ROTC program or veterans who have active duty service may substitute that experience for all or part of their physical activity requirement. One semester of ROTC can substitute for one (1 credit) activity course requirement, up to a maximum of two credits. This does not include UCFH 120. See the ESSM department chair for details. Students with physical disabilities may consult the ESSM department chair for special consideration.

Students may select any combination of one-credit courses to complete their requirement, however, one MUST be a non-varsity physical activity. An activity course may not be taken twice to fulfill this requirement. If PHED 138 (Water Safety Instructor Course, 2 credits) is passed, the successful completion of UCFH 120 will fulfill the student's physical activity requirement. Varsity athletes may substitute only one varsity sport for one activity course requirement. Students in the Marching Band may substitute MUSC 1739 or MUSC 3739 for one activity course requirement. Students completing DANC 100, 101, 102, 201, 202, 211, 212, 301, or 302 may substitute one of those dance courses for only one physical activity credit. This does not include UCFH 120.

- PHED 101 Outdoor Adventure (1)
- PHED 102 Softball (1)
- PHED 103 Flying Disc Sports (1)
- PHED 104 Aqua Aerobics (1)
- PHED 105 Beginner/Intermediate Golf (1)
- PHED 106 Tennis (1)
- PHED 107 Fitness Walking (1)
- PHED 108 Fitness Running (1)
- PHED 109 Strength Training-Physical Conditioning (1)
- PHED 110 Personal Fitness (1)
- PHED 111 Scuba (1)
- PHED 112 Basketball (1)
- PHED 113 Racquetball-Badminton (1)
- PHED 114 Aerobics (1)
- PHED 115 Volleyball-Wallyball (1)
- PHED 116 Snow Skiing (1)
- PHED 117 Beginning Social Dance-Women (1)
- PHED 118 Beginning Social Dance-Men (1)
- PHED 119 Karate (1)
- PHED 120 Fitness Swimming (1)
- PHED 121 Jazz/Tap for Fitness (1)
- PHED 122 Spin® Cycling (1)
- PHED 123 Kayaking (1)
- PHED 124 Dance for Fitness (1)
- PHED 125 Varsity Track and Field (1)
- PHED 126 Varsity Cheerleading (1)
- PHED 127 Yoga (1)
- PHED 128 Varsity Tennis (1)
- PHED 129 Varsity Golf (1)
- PHED 130 Varsity Basketball (Men) (1)
- PHED 131 Soccer (1)
- PHED 132 Lacrosse (1)
- PHED 133 Beginning Swimming (1)
- PHED 134 Intermediate Swimming (1)
- PHED 135 Synchronized Swimming (1)
- PHED 136 Fencing (1)
- PHED 137 Lifeguard Training (1)
- PHED 138 Water Safety Instructor Course (2)
(Prereq: Advanced swimming skills)
- PHED 139 Pilates (1)
- PHED 140 Special Physical Activity (1)
- PHED 147 Varsity Volleyball-Women (1)
- PHED 148 Varsity Baseball (1)
- PHED 149 Varsity Soccer-Women (1)
- PHED 150 Varsity Basketball-Women (1)
- PHED 151 Varsity Football (1)
- PHED 152 Varsity Softball-Women (1)
- PHED 153 Varsity Cross Country (1)

Family Studies

Faculty

Kristie B. Chandler, Chair, Assistant Professor
Clara E. Gerhardt, Professor
Jonathan C. Davis, Associate Professor

Undergraduate Programs and Requirements

Majors

Family Studies
Family Studies with a Concentration in Child Development Education

Minor

Family Studies

Family studies is the study of how individuals grow and develop across the life cycle—particularly in the context of personal, marital, and family relationships. Family studies courses expose students to both practical and theoretical content in areas such as dating and relationship formation, marital relationships, human sexuality, parenting, families and society, lifespan development, gender roles, and multicultural perspectives. The philosophy and broad principles required to plan, implement, and evaluate educational programs designed to optimize family functioning, represent some of the specialized skills of the Family Life Educator.

This discipline concerns the study of an individual's physical, emotional, social, cognitive, and spiritual development from birth through adulthood and how that individual development impacts the family unit. It studies family dynamics from a systemic, developmental framework. The societal issues confronting families, including family law and family economics, are examined. The theories and research which attempt to explain and predict family functioning from an individual and societal perspective are emphasized.

Mission Statement

To promote and support healthy family life, to teach and to learn about family life in its diversity, as families are the fabric of society.

Certification

The family studies major recognizes the crucial role of families in society. The family studies curriculum focuses on personal relationships and their connection to and impact on human living and development. Since 1999 the family studies curriculum has met the requirements for the Provisional Certified Family Life Educator (CFLE) designation awarded by the National Council on Family Relations (NCFR; www.ncfr.org).

Degree Programs

The Department of Family Studies (FAMS) offers a major in family studies culminating in a bachelor of arts (B.A.) degree.

For students interested in obtaining a master of science in education with Class A certification for preschool through sixth grade, the Orlean Bullard Beeson School of Education and Professional Studies offers a fifth-year nontraditional graduate program in early childhood and elementary education. Detailed requirements are described in the Teacher Education section of this catalog.

The department also offers a minor in family studies.

Social Entrepreneurship and Non-Profit Management Minor (Brock School of Business)

While not a requirement for a family studies degree, some students may benefit from declaring a minor. There are numerous possibilities throughout the academic programs available at Samford. Many family studies majors are attracted to job opportunities available through non-profit and not-for-profit organizations. A family studies major, coupled with a minor in social entrepreneurship and non-profit management through the Brock School of Business, may increase job marketability. If interested, please refer to the Brock School of Business section of this catalog to review the requirements for the minor.

Concentration in Child Development Education

In addition to the general family studies major, a concentration in child development education is available. This concentration leads toward a specialized career as a professional educator in a child development setting. Its focus is on working with children and families in the pre-school setting, with specific emphasis on early childhood curriculum. Samford University utilizes the Samford Children’s Learning Center (CLC) as a practicum setting. This concentration represents a collaboration between the Departments of Family Studies and Teacher Education with students taking courses in both disciplines. Students interested in this concentration must notify their advisor during the fall semester of their sophomore year.

Adult Degree Program

The Family Studies department also directs a bachelor of science in interdisciplinary studies (B.S.I.S.) degree with an area concentration in counseling and human services, which is only offered through the Adult Degree Program. Detailed requirements and a listing of all courses for this program are described in the Adult Degree Program section of this catalog.

Career Options

The program is designed to prepare students for professional careers in the helping professions, in human service agencies, the non profit sector, or for graduate school and research. Career options include family life education, parenting education, helping professions, elder care services, family and social services, child development, youth ministry, and education.

While family studies is a solid foundation for a career in the helping professions, a master’s degree or higher may be required to practice and be employed at a competitive level. A significant portion of family studies students plan to attend a master’s degree program in areas such as social work, marriage and family therapy, counseling, early childhood education, occupational therapy and seminary.

Competencies

Samford University focuses on the following competencies in its educational approach: written, oral, quantitative, and information literacies.

Students who complete a family studies degree:

1. Have an understanding of an individual’s physical, emotional, social, cognitive and spiritual development from birth through adulthood and how that individual development impacts the family unit.
2. Have an understanding of family dynamics from a systemic, developmental framework.
3. Have an understanding of the societal issues confronting families including family law and family economics.
4. Have an understanding of the philosophy and broad principles required to plan, implement, and evaluate educational programs designed to optimize family functioning.
5. Have an understanding of the theories and research which attempt to explain and predict family functioning from a micro (individual) and macro (societal) level perspective.
6. Have completed an internship in a child and/or family social/community agency.
7. Have received conditional approval as Certified Family Life Educators (CFLEs) recognized through the National Council on Family Relations.

University Core Curriculum and General Education Requirements

See University Core Curriculum and General Education Requirements in the Howard College of Arts and Sciences introductory pages for a list of required courses. General Education Requirements are detailed in the individual degree tables, with some exceptions. In those cases where a requirement is not specified, consult pp. 64 and 185 for a list of applicable courses.

For the family studies major (FAMS), a student can satisfy the language requirement by taking up to 16 credits (language 101, 102, 201, 202), while for the family studies major with a concentration in child development education (FAMS-CHDE), this requirement can be met by taking up to eight credits (language 101-102).* In both cases, the requirement can be waived if the student demonstrates proficiency on the Samford foreign language placement exam.

*Four credits of language (202 or higher for FAMS majors, 102 or higher for FAMS-CHDE majors) will be applied to the general education language requirement while the balance of language credits will be applied to general electives.

Courses

FAMS 202 Marriage and the Family (4)

Overview of theories and research methodologies related to the study of relationships in modern personal and family living. Topics covered include dating, marriage, stages of family life, intrafamily relationships (e.g. husband-wife), parenting, the role of family and extended family, as well as micro and macro level influences on family issues. Offered: Fall and Spring.

FAMS 300 Parenting (4)

Exploration of emotional, physical, and sociological aspects of parenthood, with special attention on the needs of children. Introduction to parenting philosophies, theories, and programs, including developmental parenting throughout the lifespan, family diversity, and challenges to contemporary parents and their children. Focus on parent education programs and how the family life educator can present and use these programs. Offered: Fall.

FAMS 310 Counseling Foundations (4)

Emphasis on (1) orienting students to the field of counseling, with its different settings and variety of activities, and (2) equipping the student with basic understanding of counseling techniques and basic skill proficiency intended to serve the student well in many aspects of interpersonal interaction. Prereq: FAMS 202. Offered: Fall, on rotation.

FAMS 322 Family Life Education (2)

Introduction to the general philosophy and broad principles of family life education, in conjunction with the ability to plan, implement, and evaluate such educational programs. Students observe family life education in practice, and then critique and develop their own curriculum presentations. Emphasis on process-oriented teaching methodology. Prereq: FAMS 202. Offered: Fall.

FAMS 324 Human Sexuality (4)

Examination of human sexuality from multidisciplinary perspectives, including the biological, spiritual, psychosocial, and cultural dimensions. Discussion of beliefs and values that influence individual health and well-being. Implications for personal values formation and decision-making. Co-listed as PSYC 324 and SOCI 324. Prereq: FAMS 202. Offered: Spring.

FAMS 330 Death and Dying (4)

Introduction to personal death awareness, including aspects associated with counseling clients who are facing death, as well as the concerns of family members going through the grief process. Offered: On rotation.

FAMS 331 Family Dynamics (4)

Analysis of family dynamics from a systemic, developmental framework. Students are challenged to examine common and particular needs and issues of families as they navigate through the family life cycle. Includes examination of the contemporary social context in which families operate. As a writing course, FAMS 331 focuses on training students to develop effective APA research writing skills. Prereq: FAMS 202. Offered: Spring.

FAMS 345 Families and Health (4)

Study of dynamic aspects of health and wellness in the family throughout the lifespan. Focus on preventative and remedial approaches to safeguarding emotional and physical health to promote optimal well-being for families. Impact of illness and disabilities on family dynamics. Emphasis on family behaviors related to nutrition, fitness, stress, and illness, and responsibly contributing to their own and others' health and well-being. Prereq: FAMS 202 or instructor permission. Offered: Spring.

FAMS 346 Family Economics (4)

Study of economic topics as they pertain to family resource management. Focus on financial decisions throughout the lifespan, including budgeting, investments, retirement planning, insurance, housing, and informed consumer decisions. Developing and protecting personal and family resources. Investigation of career choices and habits necessary for constructive financial and resource related decisions. Prereq: FAMS 202 or instructor permission. Offered: Fall.

FAMS 350 Introduction to Non-Profit Organizations & Grant Writing (4)

Survey course that explores the role of non-profit organizations in society. Students will examine the theoretical, philosophical, practical, and ethical perspectives related to the creation and administration of non-profit organizations, including grant writing. Prereq: FAMS 202. Offered: On rotation.

FAMS 360 Infant and Child Development (4)

Overview of the science of child development. Includes introduction to major theories of child development and a close examination of the major domains of child development (cognitive, physical, social-emotional) from prenatal to early adolescence. Special focus will also be given to specific disabilities which interplay with development (e.g., ADHD, autism). Additionally, students will gain hands on training and practice administering the Denver II instrument. Prereq: FAMS 202. Offered: Fall.

FAMS 365 Adolescent and Adult Development (4)

In depth study of the physical, emotional, cognitive, social, personality, and spiritual development of persons from adolescence through later life. Major theories of adolescent and adult development are presented as well as various issues related to these stages such as peer relationships, dating, marriage, career choice, transitions to parenting, empty nest, mid-life, and retirement. Prereq: FAMS 202 or instructor permission. Offered: Spring.

FAMS 370 Practicum in Family Studies (4)

Students complete a practicum of 125 hours in a child/family/social/community agency, as well as attend class. The focus is on personal and professional development, ethical guidelines of various helping professions, and compilation of a professional portfolio. Practicum sites must meet specified criteria, available from the FAMS practicum supervisor. Enrollment is limited to juniors and seniors. Prereq: FAMS 202. Offered: Fall and Spring.

FAMS 375 Independent/Special Study (1-5)

Individual problem selected by the student, with approval of the department chair, arranged with the guidance and supervision of an assigned staff member. Prereq: FAMS 202. Offered: See advisor.

FAMS 383 Research Methods (2)

Introduction to research methods in family studies. Drawing on examples from the discipline, this course introduces students to basic elements of scientific thought and stages in the quantitative research process, as well as research ethics. Students design a research project that is completed in the senior research course to follow. Prereq: FAMS 331. Offered: Fall.

FAMS 390 Child Life Practicum (4)

Students work (as volunteers) in an early childhood learning program under supervision of the children's learning center staff and Samford faculty. Class meets once per week for 2 hours and 40 minutes, plus 8 hours per week of field experience. (Students pursuing the former child life concentration will work as volunteers in a hospital child life program under supervision of the hospital child life staff and Samford faculty.)

FAMS 400 Family Law and Public Policy (4)

Promotion of interdisciplinary knowledge in the content areas of family law and public policy. Topics include legislation and policies relating to marriage, family leave, divorce, family support, child custody, child protection, and economic support for children and families. Ethics are emphasized as pertaining to the lifespan and to the helping professions, specifically family studies. Prereq: FAMS 202 or instructor permission. Offered: Spring.

FAMS 413 Multicultural Perspectives (4)

Overview of contemporary family science scholarship related to multicultural, diversity and gender perspectives. Examines the centrality of cultural identity and gender in the organization, structure and functioning of families and societies. Cultural competence and cross cultural skills are explored through multicultural and diversity perspectives in national and international contexts. Offered: On rotation.

FAMS 483 Senior Research (2)

Capstone course designed to familiarize seniors with theoretical and applied research, and research ethics, as it relates to their particular discipline and interests. Final objective is a senior project, which is evaluated by practitioners in the field. Prereq: FAMS 383. Offered: Fall.

FAMS 490 Child Life Internship (12)

Students complete an approved Child Life internship experience in a hospital setting. All internship experiences are supervised by a certified Child Life Specialist and involve a minimum of 480 hours of experience. Enrollment in this course is dependent upon acceptance into an approved hospital program. Security clearance and proper immunizations may be required by the hospital prior to the start of the internship. Failure to meet these requirements may result in termination of enrollment. Prereq: Instructor permission.

FAMS 491 Child Development Education Internship (12)

Students complete an approved internship involving a minimum of 450 hours of clinical, structured experiences working with young children and their families in one or more early childhood learning center locations. Hours include a minimum of four supervisory consultations by approved University personnel. Travel within and outside the Birmingham metro area may be required to reach the site(s). Students enrolled in this course **MUST** have a **negative security clearance** by the Alabama Department of Human Resources prior to the start of their internship. Failure to receive clearance may result in termination of enrollment. Prereq: Instructor permission. Offered: Spring.

Ken Brazil, Associate Professor
Charles L. Ford, Assistant Professor

Undergraduate Programs and Requirements

Major

Interior Design (with a required minor in Art)

The Department of Interior Design offers a major in interior design leading to a bachelor of arts degree. Interior design majors must declare art as their first minor, but are free to add a second minor if desired. Note: The art minor that's part of the interior design major is technically different from the independent art minor as seen on p. 125. Students majoring in interior design should follow the minor requirements as detailed in the degree table on the next page.

Interior Design

Samford University's interior design program trains designers to combine aesthetic values with practical needs and realities. Program graduates weigh design decisions with social, cultural, and ecological context in mind; use a holistic approach that integrates interior design with architecture; stress the three-dimensional use of space; consider the user's awareness and experience of space; and incorporate the necessary understanding of codes and life-safety issues. We are committed to training employable graduates at a professional level.

Accreditation

The Samford University interior design program is accredited by the Council for Interior Design Accreditation (CIDA).

Interior Design as a Profession

Interior design is evolving into a more exciting profession than ever before. There is an increasing need for designed environments of personal, group and community space in residential and commercial structures, in both new and older buildings. With the challenges of rising costs and limited space, designers must create multiple-use, aesthetically pleasing and functional areas for the inhabitants.

Designers may work with architects or may practice independently or within a firm. They study the users of the space and envision the necessities for function. Code compliance, architectural detail, furnishings, fabric, texture, color, ergonomics and psychology provide designers with a wide range of variables for creative solutions.

Designers need to be familiar with basic design principles and theories, materials, construction, lighting, and support systems for comfort. They then combine these elements to create functional, inspiring, and aesthetically pleasing spaces.

Curriculum

Interior design students work toward a bachelor of arts degree. Course requirements include 54 core/general education credits, 22 credits for an art minor, and 57 interior design credits.

Freshmen begin their studies with core curriculum and foundational art courses. As sophomores, students begin a sequence of interior design studio classes and focused-content courses. At the end of the sophomore year, students submit portfolios of their work for eligibility to continue in the program. During their junior and senior years, students complete additional studio courses and a group of focused-content courses, such as lighting, building codes, and furniture and millwork design. Students also complete an internship with an architectural or interior design firm.

Coursework involves group projects and class critiques that create active and collaborative learning experiences. Professors choose problems that students are likely to find as designers and discuss projects from several viewpoints: users, employers, and construction professionals. At a midpoint critique, the faculty requires students to defend their designs as if the students were speaking to employers, clients, and team members.

University Core Curriculum and General Education Requirements

See University Core Curriculum and General Education Requirements in the Howard College of Arts and Sciences introductory pages for a list of required courses. General Education Requirements are detailed in the degree table, with the exception of the physical activity requirement. Consult p. 185 for a list of applicable activity courses.

Students may satisfy the language requirement by taking up to eight credits (language 101-102)* or by demonstrating proficiency on the Samford foreign language placement exam.

*Four credits of language (102 or higher) will be applied to the general education language requirement while the other four credits will be applied to general electives.

Technical/Studio Course Fee

Beginning Fall 2009, there is a \$120 fee per semester for students enrolling in technical/studio courses. The following courses are taught in the technical/studio format: INTD 122, 221, 222, 223, 230, 300, 301, 302, 315, 320, 401, 403, 450, and 495. This fee is subject to change without notice. See the Bursar's Office Web site for more information.

Requirements for Admission to Interior Design Undergraduate Program

Because the bachelor of arts in interior design (INTD) presupposes a certain level of professional competence, each interior design major is required to fulfill application requirements for this major.

1. Minimum ACT score of 18.
2. Minimum cumulative GPA of 2.5 after completion of 30 credit hours, including ART 101, 102, 221, 231, and INTD 122, or the equivalents.
3. Successful completion of Portfolio Review (to include work from ART 101, 102, 221, 231, and INTD 122, or the equivalents as approved by the interior design department chair) to continue in the program.
4. Successful completion of an interview with interior design faculty members following completion of the aforementioned courses to continue in the program.
5. Completion of application form.

Note: Entering freshmen and transfer students are required to attend a seminar during the fall semester. This will include delineation of the course of study, the purpose of the art minor, explanation of the portfolio review, and outline specifications for personal computers and software that will be required for the sophomore, junior, and senior courses of study.

Courses

INTD 122 Technical Drawing (2)

Introduction to technical drawing skills required for the practice of interior design. Technical/studio format. Offered: Spring.

INTD 215 Building Codes (2)

Exploration of responsibilities of interior designers with regard to health, safety, and welfare of the public as affected by their designs. Guidelines used include building codes, the Americans with Disabilities Act, and Licensing Agency standards. Lecture format. Offered: Spring.

INTD 221 CAD I (2)

Introduction to computer application of technical drawing skills required for the practice of interior design. Builds upon skills introduced in INTD 122 (Technical Drawing). Technical/studio format. Prereq: INTD 122. Offered: Fall.

INTD 222 CAD II (2)

Further development of computer skills and applications introduced in INTD 221. More complex drawing types are explored and 3-D modeling is introduced. Technical/studio format. Prereq: INTD 122 and INTD 221. Offered: Spring.

INTD 223 Construction Documents/Building Systems (4)

Technical study of the basic components of building construction documents, as well as of structural, mechanical, plumbing, and electrical building systems, and how these relate to interior design. Technical/studio format. Prereq: INTD 222. Offered: Fall.

INTD 230 Introduction to Three-Dimensional Design (2)

Study of three-dimensional composition as it relates to space design, building upon basic principles and elements of design introduced in Art Structure I and II. Technical/studio format. Prereqs: ART 101, 102, 221, and 231. Offered: Fall.

INTD 246 Textiles and Materials (2)

Exploration of characteristics, properties, and applications of textiles and other materials used for construction, furnishings, and as finish surfaces in the built environment. Offered: Spring.

INTD 300 Space Planning (4)

Application of knowledge and skills attained in prerequisite courses to the development of functional, aesthetically pleasing, and physically and psychologically supportive spaces. Emphasis on human factors, space standards, and pragmatic project requirements. Technical/studio format. Prereqs: ART 101, 102, 221, and 231; and INTD 122, 221, and 230. Offered: Spring.

INTD 301 Design Concepts I (4)

Introduction to the design methodology process, as abstract principles are applied to spatial problem-solving. Based on elements and principles of design that were introduced in the art minor. Technical/studio format. Prereqs: INTD 122, 221, 222, 223, 230, and 300. Offered: Fall.

INTD 302 Design Concepts II (4)

Continuation of concepts as presented in Design Concepts I, with greater application of the design methodology process toward spatial problem-solving. Although project types vary, focus is on residential issues. Technical/studio format. Prereq: INTD 301. Offered: Spring.

INTD 315 Furniture and Millwork Design (2)

Introduction to the design process as well as technical criteria to be considered in the design of furniture and millwork items. Students should have a basic knowledge of the design process and artistic and technical drawing as used as tools to develop project design solutions. Technical/studio format. Prereqs: ART 101 and 102; and INTD 122, 221, 222, and 223. Offered: Fall.

INTD 320 Presentation Techniques (3)

Studio course for interior design majors that focuses on developing perspective sketches, rendering techniques, and graphic compositions for presentation purposes. Skills acquired in ART 221 (Drawing I) and INTD 122 (Technical Drawing) serve as a foundation for this course. Technical/studio format. Prereq: INTD 122. Offered: Spring.

INTD 325 Historic Preservation and Adaptive Reuse (4)

Identification and study of historical architectural styles as designed and constructed in specific projects. Students research the building's original appearance and restore the project to its original purpose or to a converted purpose. Prereqs: ART 101 and 102; and INTD 222, 223, and 301. Offered: Spring.

INTD 380 History and Theory of Interiors and Furnishings (4)

Study of the development of architectural interiors and furnishings from pre-history to the present, grounding students in each cultural period of hallmarking a set of determinants that shaped the culture's aesthetics and design history. Offered: Fall and Spring.

INTD 400 Interior Design Independent Study (1-4)

Exploration of a particular design content area as selected by the student, with approval of the program coordinator, under guidance and supervision of an assigned staff member. Offered: See advisor.

INTD 401 Special Topics in Interior Design (1-4)

Special topics in interior design not normally examined in depth in regular course offerings. May explore a special design interest of a faculty member or a newly emerging area in interior design. Topics vary depending on the instructor. Technical/studio format. Offered: See advisor.

INTD 403 Design Concepts III (4)

Continuation of concepts as presented in Design Concepts I and II, with further application of the design methodology process toward spatial problem-solving. Although project types vary, focus is on commercial design issues. Technical/studio format. Prereqs: INTD 301 and INTD 302. Offered: Fall.

INTD 412 Lighting (2)

Study of basic lighting principles and their application. Sources, lamp properties, fixture design, photometrics, lumen/footcandle calculations, and lifecycle evaluation are derived for specification. Prereq: ART 101 and 102; and INTD 222, 223, 300, and 301. Offered: Fall.

INTD 415 Professional Practice for Interior Designers (2)

Exploration of business practices of the profession of Interior Design, such as marketing, compensation, business structure, legal responsibilities, and more. Lecture format. Offered: Spring.

INTD 450 Portfolio (2)

Designed for upper-level interior design students who are preparing portfolios for job interviews, graduate school applications, design grants, or competitions. Technical/studio format. Prereqs: INTD 301, 302, and preferably 403. Offered: Spring.

INTD 455 Internship (4)

Independent study in which students gain practical experience while working in an architectural or interior design firm, or in a business involved in the practice of interior design. Grading is pass/fail only. Prereqs: INTD 301 and INTD 302. Offered: See advisor.

INTD 495 Senior Thesis (4)

Final, senior-level design studio course that incorporates components from all previously studied interior design courses. Students design projects based on their own research and program development. Technical/studio format. Prereqs: INTD 301, 302, and 403. Offered: See advisor.

Teacher Education - Undergraduate

Faculty

H. Elizabeth (Betsy) Rogers, Chair, Assistant Professor
 Charlotte Freeman, Professor
 Martha B. Ralls, Professor, Director of Secondary Education
 David M. Finn, Associate Professor, CEO, Children's Learning Center,
 Director of Special Education
 Amanda S. Hilsmier, Associate Professor
 David C. Little, Associate Professor, Director of Elementary Education

Undergraduate Programs and Requirements

Majors

Early Childhood/Special Education/Elementary/Collaborative (ESEC)
 English
 History
 P-12 Education
 Secondary Education

Minor

Missions Education

Teacher Certifications

Combined Program (ESEC):
 Early Childhood Education (Grades P-3)
 Early Childhood Special Education (Grades P-3)
 Elementary Education (Grades K-6)
 Elementary Collaborative Education (Grades K-6)
 P-12 Education
 Secondary Education (Grades 6-12)

The Department of Teacher Education offers three distinct majors—ESEC (early childhood/early childhood special education/elementary/elementary collaborative), English, and history—all leading to a bachelor of science in education. Teacher certification is available in the combined ESEC program for grades P-3 (early childhood education and early childhood special education) and grades K-6 (elementary education and elementary collaborative education), and in secondary education for grades 6-12 (English and history). In addition, the department offers P-12 certification in world languages and music for students pursuing bachelor's degrees in those respective departments. The department also offers a minor in missions education, which is available only to students pursuing a teaching certificate.

Each program in teacher education complies with teacher certification requirements prescribed by the Alabama State Department of Education. Certification requirements outlined by the Alabama State Department of Education differ slightly from traditional Arts and Sciences majors and must be followed exactly. For example, a bachelor of science in education with a major in English (ENGD) prepares students to not only teach English, but also speech and theatre at the secondary school level. The ENGD major includes a language arts component, with requirements in communication studies, journalism, and theatre, in addition to English and education. The bachelor of science in education with a major in history (HISD) includes a social science component, with requirements in economics, geography, and political science in addition to history and education. Information about other programs may be obtained from the department chair or advisement counselor. Students planning to earn certification in secondary education must come to the Orlean Bullard Beeson (OBB) School of Education and Professional Studies at the beginning of the freshman year for advisement.

The teacher education department is accredited by the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue NW, Suite 500, Washington, DC 20036. This accreditation covers all of the institution's initial and advanced teacher preparation programs.

The teacher education department was recognized by the U.S. Department of Education as being one of the top four effective teacher preparation programs in the nation. All certification programs offered through the teacher education department are aligned with the No Child Left Behind (NCLB) Act of 2001.

Teacher Certification Subject Areas Offered

Composite Subject Areas (6-12)	Major Subject Areas (6-12)	Major Subject Areas (P-12)
English/Language Arts History/Social Science	World Languages: (French, German, Spanish) History Mathematics	World Languages: (French, German, Spanish) Instrumental Music Vocal/Choral Music

Certifications or Proficiencies

A summary of special requirements for teacher education undergraduate students in general may be noted:

1. ESEC majors are not required to earn additional majors or minors.
2. Those earning P-12 certification in world languages or music and those earning secondary certification in English, or history are not required to earn additional majors or minors.
3. All ESEC majors must take additional math and science courses.
4. All students earning certification must successfully pass an exit examination, currently Praxis II in content area.
5. All students earning certification must successfully pass the Alabama Prospective Teacher Testing Program (APTTP)

Admission to Teacher Education

Requirements for admission to teacher education undergraduate programs are:

1. Minimum ACT score of 20.
2. Grade of C- or better required in all courses.
3. Formal application for admission.
4. Successful completion of EDUC 221 and EDUC 222.
5. Completion of 60 credits of coursework with a GPA of at least 3.00 for ESEC majors and 2.80 for secondary and P-12 majors.
6. Completion of projected schedule and agreement form.
7. Completion of an interview with a faculty member in the OBB School of Education and Professional Studies.
8. Two letters of recommendation for ESEC majors.
9. Two letters of recommendation for secondary education or P-12 from a professor in the student's major department and a professor in the teacher education department.
10. Completion of signed document verifying ABI and FBI criminal background checks.
11. Passing score on the Alabama Prospective Teacher Testing Program (APTTP) examination.
12. Demonstration of satisfactory potential for teaching, including evidence of emotional stability and a satisfactory record as to conduct, character, and mental health, to the effect that the applicant does not have any personal qualities prejudicial to satisfactory performance as a teacher.

Acceptance is contingent upon the recommendation of the admissions panel, which meets twice yearly. Applicants will be notified in writing of their acceptance or rejection. Transfer students follow the same admission policies. Education courses may not be transferred into the teacher education program without permission from the department chair.

Retention in Teacher Education

Once admitted into the teacher education program, the minimum GPA requirement (3.00 for ESEC majors; 2.80 for secondary and P-12 majors) must be maintained in all of the following three areas: cumulative, major courses, and professional courses. Failure to maintain the required minimum cumulative GPA and the required minimum GPA in the major teaching and professional fields prevents a student from enrolling in specific education courses until that GPA is met. No grade below C- in any course is permitted; in case of a lower grade, the course must be repeated. These GPA requirements also pertain to graduation and certification.

Any student who, in the opinion of the OBB School of Education and Professional Studies Hearing Board, is judged to have developed dispositions or characteristics, academic or otherwise, deemed undesirable for the profession may, after appropriate review, be dropped from the program.

Students wishing to take courses from other colleges must obtain permission beforehand. Please note that education courses may not be transferred into the teacher education program, and independent studies will not be offered. Also, if students take a course through the Adult Degree Program, they will be billed additional tuition equivalent to the day rate per credit.

Students must complete their program within four years of being admitted to teacher education or must reapply for admission to the program. Grievances related to grades may be brought before the Teacher Education Academic Review Board. See the department chair in OBB Room 338 for specific procedures.

Clinical Requirements

All teacher education majors are required to complete a wide variety of clinical experiences. These begin in the first semester of the education curriculum and extend throughout the program. ESEC majors will complete a minimum of 30 weeks. This includes one three-week Jan Term experience and observing a first day of school. Secondary majors will complete a minimum of 24 weeks. This includes one three-week Jan Term experience and observing a first day of school. Students must maintain satisfactory evaluations of performance in all clinical experiences in order to progress through the teacher education program.

Professional Semester

The student-teaching semester is the final experience in teacher education. The internship experience includes 15 weeks of student teaching and may be taken in the fall or spring semester.

Students planning on student teaching in the fall must submit the student-teaching application during the preregistration period of the preceding fall. Students planning on student teaching in the spring must submit the student-teaching application during the preregistration period of the preceding spring. Applications must be turned in to the Office of Clinical Experience in OBB Room 322.

To be eligible for student teaching, a student must have been admitted to teacher education, be in good academic standing, have demonstrated necessary dispositions to be a successful teacher, have successfully completed the required clinical experience, completed 56 of the required 64 convocation credits, and must have had a complete records check. To be in good academic standing, a student must have completed all EDUC-prefix courses and all essential teaching-field courses, have removed all Incompletes from all courses, and have maintained a 3.00 (ESEC majors) or 2.80 (secondary and P-12 majors) GPA overall and in each teaching field. Students are referred to the *Clinical Handbook* for a complete explanation of the required clinical experience.

Student teachers must observe the guidelines established by Samford University and all the rules set by the school in which the student teaching is done. Failure to do so can result in the student being dropped from the professional semester or removed from his/her school placement. A student may only repeat the student-teaching semester one time.

Students should consult the *Clinical Handbook* for additional information.

Completion of Program

Students who successfully complete a prescribed program at the baccalaureate level in teacher education will be eligible for the Alabama Class B teacher certificate in their area(s) of specialization. Completion of the program is contingent upon achieving a 3.00 (ESEC majors) or 2.80 (secondary and P-12 majors) GPA in the area or areas of specialization, in the professional components, in the higher education GPA, and performing satisfactorily as a teacher during the professional semester. Students must also demonstrate professional dispositions as explained in the departmental dispositions policy. In order to receive certification, all students must be fingerprinted. Students enrolled in EDUC 221/222 will be informed of the ABI and FBI fingerprinting procedures.

Students must also pass an exit examination (currently PRAXIS II) and the APTTP in order to receive certification. If a student successfully completes all program requirements, he/she may graduate, but certification may not be received until both exams are passed.

Special Program for Students Interested in Teaching Overseas

Students interested in serving as missionary teachers or in some other capacity in a foreign culture may fulfill all requirements for an Alabama teaching certificate while earning a minor in missions education. Most countries now expect missionary teachers to hold a teaching certificate from the U.S. or the host country.

The minor in missions education is available only to students earning a teaching certificate. Course requirements are listed below, and students interested in this program may apply some of these courses toward the regular requirements in teacher education.

University Core Curriculum and General Education Requirements

See University Core Curriculum and General Education Requirements in the Howard College of Arts and Sciences introductory pages for a list of required courses. General education requirements are detailed in the individual degree tables, with some exceptions. In those cases where a requirement is not specified, consult pp. 64 and 185 for a list of applicable courses. For ESEC and history majors, INTL 202 is an acceptable substitution for the fine arts general education requirement.

Missions Education Minor

Missions Education Minor Required Courses		Course Credits	Total Required Credits
EDUC 407	Cross-Cultural Practicum* <i>or</i>	3-4	
EDUC 409	Meeting Success in a Diverse World		
GEOG 101	Global Geography	4	
RELG 201	Introduction to World Religions	4	
RELG 210	Foundations of Congregational Studies	4	
UCBP 101	Biblical Perspectives	4	
Total Required Credits			19-20

*While EDUC 407 is offered for variable credit (1-4 credits), the School of Education requires their majors/minors to take the course for 3 or 4 credits. Cannot take for 1 or 2 credits.

Undergraduate Courses

EDUC 201 Sign Language I (1)

Introduction to finger spelling as well as American Sign Language issues pertaining to the deaf community.

EDUC 204 Tutoring Experiences in Education (2)

Provides an introductory field experience opportunity for undergraduates interested in pursuing a career in teaching. Offered: Fall and Spring.

EDUC 213 Adolescent Development within the Educational Culture (2-4)

Study of the life span between childhood and adulthood, a time when major adaptations are made in the total organism. Emphasis on these adjustments, including modifications of a physiological, physical, psychosocial, sexual, moral, and cognitive nature. Special consideration given to education of the adolescent, including gender differences, learning styles, learning theories, and motivation. Primary focus on how adolescents are impacted by these changes, how they deal with them, and how this is reflected in their behavior within the educational environment, plus implications for the educator. Clinical experiences included for secondary teacher education students, who should take course for 4 credits. Students not involved in clinical experiences should take the course for 2 credits. Offered: Fall and Spring.

EDUC 221 Issues within the Educational Culture (4)

Exploration of contemporary educational issues for prospective teachers. Students examine philosophical and historical bases of education as a profession and apply an understanding of such frameworks to an analysis of current issues in education. Emphasis on assigned readings and analyses of cases drawn from real-life situations in order to challenge students to view the educational process from many perspectives and to begin their journey as reflective decision-makers. Students will develop an informed personal philosophy of education, which they will continue to challenge throughout their educational program.

EDUC 222 Clinical Experiences in the Educational Culture (4)

Intensive field experiences (45 hours) in urban, rural and suburban educational settings. Focus on student development of a personal philosophy of teaching/learning based on observation of sound teaching practices and strategies. Reflective decision-making skills developed through observational journal writing and actual classroom teaching experience. Methodologies include field experience, lecture, journals, case studies, and problem-solving sessions. Designed for prospective P-12 teachers.

ESEC Major

The following requirements apply for a combined major in: early childhood education (Grades P-3); early childhood special education (Grades P-3); elementary education (Grades K-6); elementary collaborative education (Grades K-6).

ESEC Major Required Courses	Course Credits	Total Required Credits
University Core Curriculum		22
General Education Requirements:		40

Total Required Credits		162

*A minimum GPA of 2.80 is required.

NOTE: Program subject to change if state and/or federal requirements are revised.

EDUC 223 Introduction to Technology (1)

Introduction to currently available technology for prospective teachers. Includes instruction on how students can use various media in their classrooms, in their own education, and in their own professional careers. Emphasis on how multi-media can be used to meet the needs of various learning styles.

EDUC 305 Teaching in the Middle School (4)

Study of middle school philosophy and objectives. Emphasis on curriculum plans and activities for meeting the educational needs of preteens and early teenagers. Offered: Spring.

EDUC 307 Foundations of Leadership (4)

Introduction to the foundations of leadership and the importance of principled leadership in all areas of life. Offered: Fall and Spring.

EDUC 311 The Development of the Young Child (2)

Introduction to the developmental characteristics of the child from conception to age eight, or the end of the primary grades. Special consideration given to developmental dynamics of the following areas as they relate to working with this age child: physical, social, psychological, emotional, cognitive, moral, and psycholinguistic. Additional coverage includes instructional planning and strategies for children with special needs.

EDUC 312 Principles of Early Learning (6)

Introduction to the principles of early learning in preschool, kindergarten, and primary grades for the prospective teacher. Emphasis on development of an integrated curriculum in content areas, assessment, classroom management, teaching to divergent cultures, and inclusion of students with special needs. Class members are expected to apply knowledge of these principles of early learning as they analyze case studies and develop lesson plans. Students are also required to create an integrated, thematic unit and teach lesson plans they have written and evaluated. Co-req: EDUC 316.

EDUC 313 Application of Early Learning (6)

Application of early learning principles through problem-based decision cases that focus on self-reflection and decision-making, plus the technology that supports the instructional process. Includes seminars with classroom teachers and interactive clinical experiences. Designed for prospective teachers of children from infancy through age eight.

EDUC 315 Teaching and Learning in Secondary Classrooms (4)

Introduction to methods of teaching, classroom management, and the creation of effective learning environments for pre-adolescent and adolescent students with a goal of appreciating the great diversity that exists among students today. Emphasis is upon developing reflective practitioners who draw upon an array of solutions to classroom challenges as represented in literature, research, and informed practice in the field of secondary education. Offered: Fall.

EDUC 316 Practical Teaching and Learning (2)

Early childhood field experience as a prelude to the professional semester. Emphasis on curriculum development and implementation, plus reflective decision-making and integrated teaching/learning strategies within the framework of a multicultural educational and special needs setting. Designed for elementary and early childhood education majors contemplating a P-6 teaching career. Co-req: EDUC 312.

EDUC 323 Overview of Child Development (2)

Establishment of a comprehensive knowledge base of developmental characteristics regarding the child of elementary school age (nine to eleven). Includes major developmental theories related to the areas of cognition, learning, motivation, communication, language acquisition, physical, social, psychological, and moral development.

EDUC 324 The Arts Curriculum (6)

Establishment of a foundation of content and application relative to an arts-based P-6 curriculum emphasizing reflective decision-making and integrated-teaching/learning strategies. Methodologies utilized include discussion, lecture, field experiences, projects and research. Designed for elementary and early childhood education majors contemplating a P-6 teaching career.

EDUC 329 The Science Curriculum (6)

Study of the materials and methods used in teaching science, math, social studies, and technology. Emphasis on curriculum development, construction of knowledge, problem-solving techniques, and practical application to promote optimum teaching and learning. Emphasis also on reflective decision-making and integrated-teaching/learning strategies within the framework of a multicultural educational and special needs setting. Methodologies utilized include discussion, lab experience, case studies, lecture, field experience, and curriculum (unit/lesson) development. Designed for elementary and early childhood education majors contemplating a P-6 teaching career.

EDUC 330 Curriculum Application (2)

Elementary field experience as a prelude to the professional semester. Emphasis on curriculum development and implementation to promote optimum teaching and learning. Emphasis also on reflective decision-making and integrated-teaching/learning strategies within the framework of a multicultural educational and special needs setting. Designed for elementary and early childhood education majors contemplating a P-6 teaching career.

EDUC 331 Curriculum Applications in Secondary Classrooms (4)

Application of conceptions of curriculum, instruction, classroom management and discipline, multimedia, and human resources, and assessment in the context of an actual classroom. Prospective secondary education teachers design and teach a week's unit using problem-based learning techniques, and analyze assessment data collected in the field to determine the effectiveness of their teaching. Emphasis on developing reflective classroom practitioners who consider a wide array of classroom variables in analyzing a particular educational context.

EDUC 373 Practical Classroom Experience (1)

Intensive clinical experiences in a public or private school classroom, focusing on methodologies and strategies for successful classroom performance. Designed for P-12 teacher education majors. Offered: Jan Term.

EDUC 407 Cross-Cultural Practicum (1-4)

Practicum experience involving a sustained-direct relationship with people of different cultural groups. Students complete assigned tasks under supervision, after making a thorough study of the culturally different groups. See advisor.

EDUC 409 Meeting Success in a Diverse World (3)

Examination of the richness of cultural differences evidenced by students in a pluralistic modern society and of the ways these differences may be utilized in instruction to bring about achievement of all students. See advisor.

EDUC 413 Classroom Management (2)

Establishment of a foundation of content and application relative to classroom management and discipline. Emphasis on reflective decision-making and integrated-teaching/learning strategies. Methodologies utilized include discussion, lecture, field experiences, projects and research. Designed for elementary and early childhood education majors contemplating a P-6 teaching career. Offered: Fall.

EDUC 414 Reading, Writing, and Assessment across the Curriculum Areas (2)

Introduction to a variety of teaching strategies that encourage reading and writing across the curriculum areas. Includes assistance with identification of problems related to educational assessment, strategies for effective measurement of teacher performance, and an understanding of standardized testing, including selection, administration, scoring, and interpretation of instrumentation.

EDUC 415 Technology across the Curriculum (2)

Introduction to the wide variety of applications for multimedia in the classroom and to techniques for evaluating educational software and hardware. Emphasis on ways in which technology can be used effectively to teach a wide variety of subjects and meet the needs of multiple learning styles and special needs. Students are expected to be creative in the use of available resources and to develop ways to keep abreast of the constantly changing technological environment.

EDUC 416 The Professional Educator (2)

Review of major issues related to becoming a professional educator. Students explore and reflect on expectations of, and relationships with, principals, parents, and teaching colleagues. Course also serves as a culmination of the teacher education focus on problem-based learning, including exploration of the role of facilitator in a problem-based learning classroom. Students facilitate cases with other students entering the teacher education program and design and teach an open-ended problem in a classroom. Offered: Fall.

EDUC 417 Educational Practices in Action (6)

Application of sound educational practices within clinical settings as a means to facilitate student learning. Emphasis on developing the ability of prospective teachers to become reflective decision-makers and problem-solvers in the classroom as they practice the adaptation, implementation, and assessment of lessons for children with special needs. Includes experiences in inclusive and collaborative settings and opportunities to apply problem-based learning and classroom management techniques. Offered: Fall.

EDUC 418 Collaboration in Educational Practices (4)

Study of the principles of early childhood special education and elementary collaborative teaching. Emphasis on communication and involvement with families of children with special needs, avenues by which prospective teachers can access community and family resources, and teaching strategies appropriate for meeting individual needs of children. Case studies, seminars with community and educational leaders, and technology serve as vehicles for reflection and provide opportunities to develop decision-making skills necessary to make appropriate curricular and instructional choices for children with diverse needs. Designed for prospective teachers of children from infancy through grade six. Offered: Fall.

EDUC 426 The Professional Secondary English/Language Arts Teacher (3)

Field-based advanced preparation of secondary level language arts/English teachers as professional educators who work collaboratively with fellow teachers, principals, and supervisors within an assigned secondary level school environment in their content area. Emphasis on establishing professional habits that ensure lifelong growth as language arts/English teachers.

EDUC 427 The Professional Secondary Mathematics Teacher (3)

Field-based advanced preparation of secondary level mathematics teachers as professional educators who work collaboratively with fellow teachers, principals, and supervisors within an assigned secondary level school environment in their content area. Emphasis on establishing professional habits that ensure lifelong growth as mathematics teachers.

EDUC 428 The Professional Secondary History/Social Science Teacher (3)

Field-based advanced preparation of secondary level history/social science teachers as professional educators who work collaboratively with fellow teachers, principals, and supervisors within an assigned secondary level school environment in their content area. Emphasis on establishing professional habits that ensure lifelong growth as history/social science teachers.

EDUC 429 The Professional Secondary French/German/Spanish Teacher (3)

Field-based advanced preparation of secondary level French, German, or Spanish teachers as professional educators who work collaboratively with fellow teachers, principals, and supervisors within an assigned secondary level school environment in their content area. Emphasis on establishing professional habits that ensure lifelong growth as French, German, or Spanish teachers.

EDUC 443 Creative Classroom Materials (3)

Development of creative teaching materials that may be used in the preschool, elementary, or secondary school classroom. See advisor.

EDUC 474 Student Teaching in the ESEC (12)

Supervised field internship for prospective teachers of ESEC students, grades P-6.

EDUC 475 Student Teaching Grades 6-12 (12)

Supervised field internship for prospective teachers of middle and secondary students, grades 6-12.

Graduate Studies - Education

Faculty

J. Maurice Persall, Chair, Orlean Bullard Beeson Professor

Graduate Programs and Requirements

Degrees/Majors

Master of Science in Education (M.S.E.) - Class A Certification

- Early Childhood Education
- Elementary Education
- Fifth-Year Non-Traditional: Early Childhood and Elementary Education
- Fifth-Year Non-Traditional: Secondary Education
- Gifted Education
- Instructional Leadership
- Secondary Collaborative
- Music Education*

Educational Specialist (Ed.S.) - Class AA Certification

- Early Childhood Education
- Elementary Education
- Instructional Leadership

Doctor of Education (Ed.D.)

- Educational Leadership

Graduate programs in education are offered in six areas (early childhood education, elementary education, gifted education, instructional leadership, secondary collaborative, and secondary education) and at two levels of certification: a master of science in education (M.S.E.) degree with Class A certification and an educational specialist (Ed.S.) degree with Class AA certification. See the Graduate Advisement subsection at right for contact information.

*See the School of the Arts Music Division section for details on graduate music education programs.

Graduate Admission Standards for Traditional and Fifth-Year Non-Traditional Programs

Admission Requirements

1. Completion of application and payment of application fee.
2. Receipt of two official transcripts from all institutions attended.
3. Satisfactory score on Graduate Record Exam (GRE) admissions test or Miller Analogies Test (MAT).
4. Alabama Class B or Class A certification (except for fifth-year non-traditional programs) to be eligible for certification.
5. Satisfactory performance on statement of purpose essay.
6. Satisfactory performance on scholarly writing sample.
7. Three letters of reference. One must be from the applicant's supervisor.

Additional requirements may apply to specific programs.

Levels of Admission

Formal Admission

1. Minimum GPA of 3.00 for all college work attempted. (Fifth-year non-traditional program in secondary education requires a 2.80 on all college work attempted.)
2. Minimum of 800 (combined verbal and quantitative) on the Graduate Record Exam (GRE) or a minimum of 396 on the Miller Analogies Test (MAT). Applicants submitting a GRE score will be given preference.
3. Satisfactory performance on scholarly writing essay.
4. Completion of undergraduate prerequisites or passing score on the appropriate content area Praxis II test (fifth-year non-traditional program only).

Transfer Credit

In the traditional graduate studies, a student may transfer up to six semester hours of graduate credit from an accredited four-year college or university which has a state-approved graduate program in the major and in teacher education for degree programs only. Transfer credits will be evaluated by the graduate studies chair for applicability to the Samford program after application to the graduate studies is received. For the interview with the chair, each graduate transfer student will be asked to bring a catalog from the college where the courses were taken. Transfer credits more than six years old will not be accepted. These policies apply to each graduate program.

Please note: Courses may not be transferred into the fifth-year non-traditional program in early childhood/elementary education (MSE-ECEL) or the doctoral program, nor can any course taken for undergraduate credit be used to count toward graduate credit. No more than two content area courses may be transferred into the fifth-year non-traditional program in secondary education (MSE-FYNT).

Graduate Tuition Scholarships

Tuition scholarships in the amount of \$87 per semester credit are available to all students at the M.S.E. and Ed.S. level who have been accepted for graduate study. These scholarships are available for courses in education throughout the year. Please note that this scholarship is not available for doctoral students.

Retention and Completion

Students on the M.S.E. and Ed.S. level must maintain a GPA of 3.00; students on the Ed.D. level must maintain a GPA of 3.50. All students must follow a prescribed course of study specified on their program checklist as approved by the Alabama State Department of Education. They must complete all work within six years. All graduate students in an approved program must take and pass a comprehensive examination for each certification area following completion of their coursework. All graduate students receiving initial certification must also pass the Alabama Prospective Teacher Testing Program (APTTP), which includes the appropriate PRAXIS examination. At the end of any semester, a student whose cumulative GPA falls below the required minimum (3.00 for M.S.E. and Ed.S.; 3.50 for Ed.D.) may not continue in the program. Any grade below a C- shall not be counted for credit and the course must be retaken.

Graduate Advisement

Frequent meetings with the graduate advisement counselor are required throughout the graduate program. Samford University complies with the requirements of the Alabama State Department of Education concerning the admission, retention, and completion of all requirements for students seeking Class A or Class AA certification.

Requests for information about or applications to graduate studies should be addressed to the Chair of Graduate Studies, Department of Graduate Studies, Samford University. This office is located in OBB Room 226. For the fifth-year non-traditional program in early childhood/elementary education (MSE-ECEL), requests should be addressed to the Certification Officer, Department of Teacher Education, Samford University, OBB Room 322. For the fifth-year non-traditional program in secondary education (MSE-FYNT), requests should be addressed to the Fifth-Year Program Recruitment Coordinator, Samford University, Propst Hall 119.

Master of Science in Education

The master of science in education (M.S.E.) program is open to students who hold the Class B certificate from the Alabama State Department of Education. Completion requires 30 credits beyond a bachelor's degree.

All students completing the requirements for the M.S.E. degree and meeting eligibility requirements as specified by the Alabama State Department of Education will, upon recommendation of the dean of the School of Education and Professional Studies, be eligible for the Alabama Class A certificate in the appropriate area.

Class A Certification - Early Childhood Education

This major is designed to give further preparation to those who meet basic certification (Class B) requirements in early childhood education (P-3). Upon successful completion of this program, the candidate is eligible for the Class A certificate in early childhood education, provided other requirements of the Alabama State Department of Education have been met. Please contact the chair of graduate studies, OBB 226, for the Class A early childhood and elementary programs.

Class A Certification - Elementary Education

This major is designed to give further preparation to those who are certified at the Class B level as elementary school teachers. Upon successful completion of this program the candidate is eligible for Class A certification in elementary education (K-6), provided all requirements of the Alabama State Department of Education have been met. Please contact the chair of graduate studies, OBB 226, for the Class A early childhood and elementary programs.

Class A Certification Early Childhood Education OR Elementary Education Required Courses		Course Credits	Total Required Credits
EDUC 509	Adv Tech-Diag/Remediation-Reading Problems	3	
EDUC 510	Instructional Adaptation for Student Diversity	3	
EDUC 513	Instructional Design-Optimal Student Learning	3	
EDUC 514	Social Dynamics and Student Learning	3	
EDUC 515	Standards-Driven Teacher Leadership	3	
EDUC 517	Effective Curriculum Design	3	
EDUC 518	Action Research: Theory and Techniques	3	
EDUC 519	Field-Based Action Research	3	
EDUC 597	Curriculum Integration of Technology	3	
	Electives (with approval of advisor)	3	
Total Required Credits			30

Note: This program is currently under review and is subject to change.

Class A Certification - Fifth-Year Non-Traditional Program: Early Childhood and Elementary Education (MSE-ECEL)

This program is designed for students who have earned a bachelors degree in another field and who now wish to earn a master of science in education with Class A certification. Upon successful completion of this one-year program, the candidate is eligible for Class A certification in early childhood (P-3) and elementary education (K-6), provided all requirements of the Alabama State Department of Education have been met. Please contact the Certification Officer, OBB 322, for additional information.

Class A Certification - Fifth-Year Non-Traditional Program: Early Childhood & Elementary Education Required Courses		Course Credits	Total Required Credits
EDUC 531	Child Growth and Learning within the Educational Culture	6	
EDUC 532	Early Childhood & Elementary Ed Programs	6	
EDUC 533	The Arts: Curriculum & Instruction in the Early Childhood and Elementary Grades	8	
EDUC 534	The Sciences: Curriculum & Instruction in the Early Childhood and Elementary Grades	6	
EDUC 535	Current Issues in Education	4	
EDUC 592	Student Teaching	12	
Total Required Credits			42

Class A Certification - Gifted Education

This major is designed to prepare teachers to become gifted specialists (P-12). Students must hold a Class B certificate from the Alabama State Department of Education. The master's degree program requires 30-33 credits. Students who have a master's degree and Class A certification in another teaching field may be able to transfer courses taken at a previous institution to meet requirements for Class A gifted certification. Any student who has not taken a survey of exceptional children course must take EDUC 510 in addition to the 30-hour master's degree program. Please contact the director of gifted education, OBB 225, for admission requirements.

Class A Certification (Masters/Cert) Gifted Education Required Courses		Course Credits	Total Required Credits
EDUC 574	Differentiating Instruction and Teaching the Gifted in the Regular Classroom	3	
EDUC 575	Nature and Needs of the Gifted Learner	3	
EDUC 577	Current Issues in Gifted Education Seminar	3	
EDUC 578	Curriculum Materials/Methods for the Gifted	3	
EDUC 579	Practicum in Gifted Education (Internship)	3	
EDUC 580	Developing Creative/Critical Thinking Skills	3	
EDUC 597	Curriculum Integration of Technology	3	
	Electives (with approval of advisor)	9	
Total Required Credits			30

Class A Certification - Instructional Leadership

This major is designed to prepare persons holding a bachelor of science in education and a Class B Alabama teaching certificate for leadership positions in P-12 schools. The master's degree program requires 30 credits. Students holding a master's degree and Class A certification in another teaching field may be able to add Class A certification in instructional leadership by completing a certification program rather than a degree program. Please contact the chair of graduate studies, OBB 226, for admission requirements.

Class A Certification Instructional Leadership Required Courses		Course Credits	Total Required Credits
EDUC 520	Foundations of Instructional Leadership	3	
EDUC 521	Issues in School Finance	3	
EDUC 522	Management Design for School Improvement	3	
EDUC 523	Managing the P-12 Exceptional Ed Program	3	
EDUC 525	Practicum in School Improvement	3	
EDUC 526	Legal & Ethical Issues in Education	3	
EDUC 527	Internship in Instructional Leadership	3	
	Electives (with approval of advisor)	9	
Total Required Credits			30

Class A Certification - Secondary Collaborative

This program is focused on providing a master's degree in secondary collaborative special education to teachers with a Class B certification. The program is intended to prepare future secondary special education teachers to meet the needs of students with disabilities in the general education secondary classroom.

Class A Certification Secondary Collaborative Required Courses		Course Credits	Total Required Credits
EDUC 582	Issues and Trends in Special Education	3	
EDUC 585	Assessment Procedures/Processes-Special Ed	3	
EDUC 586	Managing Challenging Behavior in the Classroom-A Functional Behavioral Approach	3	
EDUC 589	Methods of Differentiating Instruction in the Secondary Classroom	3	
EDUC 593	Research-Based Methods of Instruction at the Secondary Level	3	
EDUC 595	Practicum in Secondary Collaborative	3	
EDUC 597	Curriculum Integration of Technology	3	
	Electives (with approval of advisor)	9	
Total Required Credits			30

Master of Science in Education (Alternative A Program)

Class A Certification - Fifth-Year Non-Traditional Program: Secondary Education (MSE-FYNT)

The master of science in education Alternative A fifth-year non-traditional program in secondary education (MSE-FYNT) is a 12-18 month teacher training program designed to prepare prospective teachers who already hold a degree in a certifiable teaching field from an accredited university/college the opportunity to earn Class A teacher certification, grades 6-12, in biology, English/language arts, general science, history, mathematics, social science, and Spanish. The program offers an accelerated approach to certification through advanced courses in the teaching field (12) and a core of professional courses (24) in education. All courses are offered in the evening. If employed full-time, students must be willing to use vacation or personal leave to fulfill 20-45 hours of clinical experience associated with each education course. The final semester requires full-time commitment to student teaching.

Master of Science in Education (Alternative A) Class A Certification - Fifth-Year Non-Traditional Program: Secondary Education Required Courses		Course Credits	Total Required Credits
Professional Core		24	
EDUC 550	Foundations and Issues	2	
EDUC 553	Student Development and Learning	2	
EDUC 556	Methods, Management, and Technology	3

Educational Specialist

The educational specialist (Ed.S.) program is open to students who hold the Class A certificate from the Alabama State Department of Education. Its completion requires 30 credits beyond a master's degree. All students completing the requirements for the Ed.S. degree and meeting eligibility requirements as specified by the Alabama State Department of Education will, upon recommendation of the dean of the School of Education and Professional Studies, be eligible for the Alabama Class AA certificate in the appropriate area.

Class AA Certification - Early Childhood Education

This program is designed to prepare specialists in the field of education of young children (P-3) and is open to students who hold a master's degree and Class A certification in early childhood education.

Class AA Certification Early Childhood Education Required Courses		Course Credits	Total Required Credits
EDUC 607	Early Childhood Exemplary Programs	3	
EDUC 622	Seminar in Instructional Leadership	3	
EDUC 623	Organizational Innovation: Strategies & Tactics	3	
EDUC 624	Learning Theories: The Pursuit of Knowledge	3	
EDUC 625	Legal and Policy Issues in Education	3	
EDUC 627	Professional Development & Mentor Training for Quality Education	3	
EDUC 628	Advanced Eval. of Teaching and Learning	3	
EDUC 629	Practicum in Quality Leadership: The Quality Improvement Analysis Project	3	
EDUC 630	Quality Improvement Practicum in Education	3	
	Electives (with approval of advisor)	3	
Total Required Credits			30

Note: This program is currently under review and is subject to change.

Class AA Certification - Elementary Education

This program is designed to prepare specialists in the field of elementary education (K-6). The program described here is for students who hold a master's degree in elementary education.

Class AA Certification Elementary Education Required Courses		Course Credits	Total Required Credits
EDUC 608	Elementary Education Programs	3	
EDUC 622	Seminar in Instructional Leadership	3	
EDUC 623	Organizational Innovation: Strategies and Tactics	3	
EDUC 624	Learning Theories: The Pursuit of Knowledge	3

Total Required Credits			30

Note: This program is currently under review and is subject to change.

Class AA Certification - Instructional Leadership

This program is available to students holding a master's degree from a regionally accredited institution. The program is designed to provide administrators and teacher leaders in public and private schools with the knowledge and skills to lead initiatives to improve student academic achievement. Upon successful completion, the candidate is eligible for the educational specialist degree and Class AA certification, provided current certification requirements of the Alabama State Department of Education have been met. Please consult the chair of graduate studies, OBB 226, for requirements and additional information.

Class AA Certification Instructional Leadership Required Courses		Course Credits	Total Required Credits

Graduate Courses

EDUC 505 Independent Study (1-3)

Individual research project carried out under the supervision of a faculty advisor. Course may be taken for 1, 2, or 3 credit hours and repeated for a maximum of 6 credit hours total. See faculty advisor for course requirements. Offered: Every semester.

EDUC 509 Advanced Techniques for the Diagnosis and Remediation of Reading Problems (3)

Designed for teachers and/or administrators seeking the master of science in education degree in elementary/early childhood education. Focus on critical training in diagnosing and correcting a wide range of specific and general reading disabilities.

EDUC 510 Instructional Adaptation for Student Diversity (3)

Exploration of current legal requirements, best practice in program delivery, and services for students with special needs. Special emphasis on attitudes, knowledge, and skills needed by regular education teachers for working effectively with special needs populations in the regular classroom.

EDUC 511 Classroom Management Techniques for the Elementary Teacher (3)

Emphasis on modern classroom discipline and management techniques.

EDUC 512 Contemporary Legal Issues for the Classroom Teacher (2-3)

Special emphasis on current legal issues that affect a variety of phases of public and private schools.

EDUC 513 Instructional Design for Optimal Student Learning (3)

Investigation of instructional planning as related to student achievement in a seminar setting.

EDUC 514 Social Dynamics and Student Learning (3)

Discussion of social issues as related to their impact on the child and the learning process.

EDUC 515 Standards-Driven Teacher Leadership (3)

Design and implementation of classroom and school improvement plans with emphasis on "best practices" for increasing student achievement in the elementary school.

EDUC 516 Instructional Design for Active Learning (3)

Discussion of current research linking active learning strategies to authentic learning and retention of knowledge. Focus on implementing active learning strategies in the classroom.

EDUC 517 Effective Curriculum Design (3)

Development of teachers who are able to make reflective decisions about the design, development, and implementation of curricula, including creation of learning environments that support learning for all students to a high degree of proficiency.

EDUC 518 Action Research: Theory and Techniques (3)

Designed to provide graduate students an opportunity to formulate a research proposal, and implement and evaluate a special research project which focuses upon improving teaching and learning in diverse early childhood and elementary classrooms.

EDUC 519 Field-Based Action Research (3)

Implementation of action research and evaluation of a special research project—based on data collected for the research proposal developed in EDUC 518—which focuses upon improving teaching and learning in diverse early childhood and elementary classrooms. Prereq: EDUC 518.

EDUC 520 Foundations of Instructional Leadership (3)

Overview of the work required of an instructional leader with emphasis on specific skills used to create professional learning communities.

EDUC 521 Issues in School Finance (3)

Study of the economic factors relative to the financing of public schools. Involves in-depth study of taxation, state school finance systems, impact of school finance litigation, budgeting processes, and current/emerging issues in school finance policy.

EDUC 522 Management Design for School Improvement (3)

Exploration of enhanced learning through effective, efficient, and equitable utilization of resources and organizations used to create a learning environment conducive to school success.

EDUC 523 Managing the P-12 Exceptional Education Program (3)

Students explore current legal requirements, state and federal legislation, administrative rulings, recent case law decisions, existing standards, research-based best practices, and leadership trends used in programs serving children who have special needs. Offered: Fall, Spring, and Summer.

EDUC 524 Curriculum Design for P-12 Instructional Leaders (3)

Provides a forum where students will reflect upon the context, student, and content factors that influence curriculum design. Offered: Fall, Jan Term, Spring, and Summer.

EDUC 525 Practicum in School Improvement (3)

Purposeful "hands-on" experiences designed to prepare students to lead the essential work of school improvement. Leadership skills are developed through studying the key concepts and skills used by effective leaders, by observing effective models, and by experiencing one's own trial and error in the workplace.

EDUC 526 Legal and Ethical Issues in Education (3)

Overview of how public education is organized and operated and how local, state, and federal laws have played a role in establishing school policies and practices consistent with current legal and ethical standards.

EDUC 527 Internship in Instructional Leadership (3)

Completion of an explicit set of school-based assignments that progress from observing to participating in and then leading activities related to curriculum, instruction, and student achievement.

EDUC 529 Program Design for School Improvement (3)

Identification of strategies that successfully address barriers to learning, and implementation of these strategies in diverse K-12 classrooms.

EDUC 531 Child Growth and Learning within the Educational Culture (6)

Integrated course of study within historical educational periods regarding interrelationships among educational systems, developmental concerns, and the learning domain culminating in the use of a case study to help train teachers to be better problem-solvers.

EDUC 532 Early Childhood and Elementary Education Programs (6)

Emphasis on the study of exemplary early childhood and elementary programs. Examination of developmentally appropriate curricula design, implementation, and assessment for infant and toddler, preschool, kindergarten, primary and elementary programs.

EDUC 533 The Arts: Curriculum and Instruction in the Early Childhood and Elementary Grades (8)

Integrated course of study dealing with the teaching of reading, diagnosis, and remediation of reading problems, language arts, and fine arts.

EDUC 534 The Sciences: Curriculum and Instruction in the Early Childhood and Elementary Grades (6)

Integrated course of study dealing with the teaching of mathematics, natural and physical sciences, and social studies. Primary components include curriculum design, educational assessment, case studies, and media/technology.

EDUC 535 Current Issues in Education (4)

Review of emerging issues impacting schools and classrooms, and how to acquire the skills needed to participate effectively in creating an effective educational improvement. Focus on educational reform and restructuring, the impact of technological change on the classroom of the future, the impact of the standards movement on classroom instruction, dealing with controversial issues and special interest groups, reflective decision-making with a multicultural emphasis, and legal issues that affect the classroom teacher.

EDUC 546 Teaching Reading in the Content Area (3)

Overview of philosophies and methods of teaching reading skills in the middle and high school. Music education majors only. Co-req: EDUC 329

EDUC 574 Differentiating Instruction and Teaching the Gifted in the Regular Classroom (3)

Emphasis on developing differentiated curriculum and instructional strategies for meeting the needs of gifted learners in general education classrooms.

EDUC 575 Nature and Needs of the Gifted Learner (3)

Survey course examining the characteristics and identification of gifted and talented learners, developing gifted education programs, and special issues regarding gifted learners.

EDUC 577 Current Issues in Gifted Education Seminar (3)

Discussion of current issues in gifted education, such as academic and social-emotional needs of special populations of gifted learners.

EDUC 578 Curriculum Materials and Methods for the Gifted (3)

Development of curriculum materials and instructional strategies appropriate for gifted and talented learners.

EDUC 579 Practicum in Gifted Education (3)

Field experience in developing and delivering appropriate gifted education services in schools. Includes reflective seminars for reviewing and evaluating internship experiences. Practicum experiences are conducted in student's school/district. Prereqs: EDUC 574, 575, 577, 578, and 580.

EDUC 580 Developing Creative and Critical Thinking Skills (3)

Exploration of personal creative and critical thinking processes, with focus on integrating creative and critical thinking in the classroom.

EDUC 582 Issues and Trends in Special Education (3)

Overview of current practices in special education. Reviews appropriate methods of accommodating and modifying instruction to meet the needs of students with disabilities in general education classrooms.

EDUC 585 Assessment Procedures & Processes in Special Education (3)

Overview of the current processes and procedures in place for referral, assessment, placement, and reevaluation in special education. Prereq: EDUC 582.

EDUC 586 Managing Challenging Behavior in the Classroom: A Functional Behavioral Approach (3)

Examination of individualized behavioral management using a functional behavioral approach. Outlines the principles of applied behavioral analysis and how to apply those principles in the classroom. Prereq: EDUC 582.

EDUC 589 Methods of Differentiating Instruction in the Secondary Classroom (3)

Overview of the strategies, content enhancement routines, and effective instructional methods in a variety of content areas for teaching students with disabilities in the secondary classroom. Prereq: EDUC 582.

EDUC 592 Student Teaching (12)

(Fifth-Year Non-Traditional; MSE-ECEL) Supervised field internship for prospective teachers in early childhood and elementary education, grades P-6.

EDUC 593 Research-Based Methods of Instruction at the Secondary Level (3)

Research-based methods of instruction for secondary level teachers who hold Class B certification in their respective content areas and who seek collaborative secondary teacher certification at the master's level. Prereq: EDUC 582.

EDUC 595 Practicum in Secondary Collaborative (3)

Application of experiences learned in all prior secondary collaborative coursework to the practicum coursework. Prereqs: EDUC 582, 585, 586, 589, and 593.

EDUC 596 Current and Emerging Instructional Technologies (3)

Additional review of computer-based instructional technologies as they are applied in the educational environment. Includes opportunities for teachers to become reflective decision makers as they explore opportunities in the classroom.

EDUC 597 Curriculum Integration of Technology (3)

Expanded review of computer-based instructional technologies as they are applied in the educational environment. Includes opportunities for teachers to become reflective decision makers as they develop the necessary skills to infuse technology into the curriculum.

NOTE: Courses numbered 600 or above are open to post-master's degree students.

EDUC 607 Early Childhood Exemplary Programs (3)

Investigation of the characteristics of exemplary programs in early childhood education. Includes study of models of current outstanding programs.

EDUC 608 Elementary Exemplary Programs (3)

Investigation of the characteristics of exemplary programs in elementary education. Includes study of models of current outstanding programs.

EDUC 620 Practicum in Quality Leadership: Theory and Application of School Improvement Processes (3)

Review of knowledge and skills necessary to lead a school in the process of continuous improvement. Includes instruction in the tools and techniques of school improvement planning using concepts from continuous quality improvement and from professional learning communities. Students plan and implement a school improvement project in their school and/or classroom that engages them in the practical application of the theories and concepts of professional learning communities.

EDUC 621 Educational Business Management: Strategic Planning and Policy Analysis (3)

Development of skills and understanding necessary for successful management of educational enterprise. Focus on study of re-engineering organizations, strategic planning and decision making, the economics of education, finance and taxation, including the issues of equity and adequacy, the use of technology in managing the educational organization, and creating customer-focused schools and school systems.

EDUC 622 Seminar in Instructional Leadership (3)

Development of expertise as leaders of a collaborative planning process in which reflective decisions are made for the improvement of school designing, developing, and implementing school programs that support the learning of all students to a high degree of proficiency.

EDUC 623 Organizational Innovation: Strategies and Tactics (3)

In-depth study into the processes involved, and the skills required, to lead change in complex organizations. Emphasis on inquiry into organizational culture, group leadership, conflict management, and administrator-staff relationships.

EDUC 624 Learning Theories: The Pursuit of Knowledge (3)

Study of contemporary theories of learning so that reflective decisions made about the design and development of school programs are grounded in research-based conceptions of learning and the developmental nature of learners.

EDUC 625 Legal and Policy Issues in Education (3)

In-depth study of legal and policy issues inherent in instructional, non-instructional, and administrative positions throughout the education profession. Special attention given to legal and policy issues in the field of special education, personnel, policy development, and specific political issues that impact upon the role and direction of education in America.

EDUC 626 Social Problems of Children and Youth (3)

Examination of appropriate solutions for social problems of children and youth which contribute to behavioral and learning difficulties. Emphasis on using acquired knowledge to reflect upon possible causes and solutions and to make informed decisions which will assist students and parents to deal successfully with societal forces.

EDUC 627 Professional Development and Mentor Training for Quality Education (3)

Preparation for those who want to become effective mentors, providing guidance and professional support. Emphasis on reflective decision making concerning the strengths and needs of the mentoree.

EDUC 628 Advanced Evaluation of Teaching and Learning (3)

Review of methods of research especially suited for active involvement of practicing school administrators in scientific inquiry related to school problems. Emphasis on stimulating school leaders to think reflectively about current problems facing American schools at all levels, the methods available for collecting data about these problems, and how to seek solutions.

EDUC 629 Practicum in Quality Leadership: The Quality Improvement Analysis Project (3)

Participation in a school improvement project utilizing tools of the total quality education process. Emphasis on continuous improvement, identification of the customer/supplier relationship as applied to an education setting, working cooperatively in teams, and utilizing data in solving problems.

EDUC 630 Quality Improvement Practicum in Education (3)

Using concepts and tools learned in EDUC 629, students improve a process in a K-12 school or system and develop a plan to improve a curricular/instructional system for better student learning.

EDUC 636 Formative Leadership Theory (3)

Exploration and development of knowledge, skills, attitudes, and competencies required for successful leadership in twenty-first century organizations. Learning activities include study of the theoretical basis for formative leadership and application of principles in a clinical setting.

EDUC 637 Current Issues in Education and Leadership (3)*

Addresses current issues and trends in education with particular emphasis on leadership for meeting the needs of diverse learners. Candidates will use content knowledge regarding evidence-based best practices, including differentiation of curriculum and instruction, to provide teachers models and strategies that support student learning. Offered: Fall, Spring, and Summer.

EDUC 638 Professionalism and Ethics in Education (3)*

Addresses the educational leader's role as the "first citizen" of the educational community. Candidates will develop the ability to examine personal and professional values that reflect a code of ethics, accepting responsibility for using their position ethically and constructively on behalf of the school/system where they work. Offered: Fall, Spring, and Summer, on rotation.

EDUC 640 Trends and Issues in Teacher Leadership (3)*

Designed for candidates enrolled in the educational specialist degree program who seek certification at the Class AA level in teacher leader. This course addresses current trends and issues in education for prospective teacher leaders with particular emphasis on professionalism, ethics, and meeting diverse needs in the classroom. Candidates will use content knowledge regarding evidence-based best practices, including differentiation of curriculum and instruction, to provide teachers with models and strategies that support student learning. Offered: Fall, Spring, and Summer.

EDUC 641 Mentor Training and Professional Development in Teacher Leadership (3)*

Designed for candidates enrolled in the educational specialist degree program who seek certification at the Class AA level in teacher leader. The purpose of this course is to prepare teacher leaders to become effective mentors, providing guidance and professional support; to successfully facilitate interactions among colleagues; and to develop and implement professional development programs that increase student achievement. Emphasis is placed on developing expertise in coaching colleagues in curriculum and instruction. Offered: Fall, Spring, and Summer.

EDUC 642 Leadership for Differentiation in Schools (3)*

Designed for candidates enrolled in the educational specialist degree program who seek certification at the Class AA level in teacher leader. This course addresses leadership for meeting the needs of diverse learners in schools. Candidates will use content knowledge regarding evidence-based best practices, including differentiation of curriculum and instruction, to provide colleagues models and strategies that support student learning. Offered: Fall, Spring, and Summer.

EDUC 670 Advanced Curriculum Workshop (3)*

Designed for candidates enrolled in the educational specialist degree program who seek certification at the Class AA level in teacher leader. The purpose of this course is to offer advanced training in curriculum development and implementation for elementary and secondary students. Offered: Fall, Spring, and Summer.

EDUC 671 Program Planning and Evaluation in Gifted Education (3)*

Intended for candidates enrolled in the educational specialist degree program who seek certification at the Class AA level in teacher leader. This course offers advanced training in program planning and evaluation for gifted education specialists or individuals who administer gifted education programs. Offered: Fall, Spring, and Summer.

EDUC 672 Seminar in Gifted Education (3)

Designed for candidates in education who obtained their master's degree and certification at the Class A Level in gifted education or for those individuals who administer gifted education programming in the schools. The purpose of the course is to encourage reflective decision making and leadership skills by conducting professional learning and investigating topics related to gifted education. Offered: Fall, Spring, and Summer.

EDUC 681 Research in Certification Field (3)

Expansion of research skills already developed in student's certification area(s). Development, implementation, and reporting of original research required.

Graduate Courses (for the MSE-FYNT Program)

NOTE: A prerequisite for each of the following courses is admission into the master of science Alternative A fifth-year non-traditional program in secondary education (MSE-FYNT). These courses cannot be applied towards a different graduate education program.

EDUC 550 Foundations and Issues (2)

Exploration of political, economic, and sociological events that impact education in America and shape philosophical and historical trends in secondary education. Survey of contemporary educational issues that prospective teachers encounter in their work. Class members will reflect upon the teacher as a moral role model in relation to fairness in teaching, school reform, equality of opportunity, student diversity, and professional leadership. Offered: Fall.

EDUC 553 Student Development and Learning (2)

Study of the lifespan between childhood and adulthood, a developmental period in which major adaptations are made in all levels of human functioning: physiological, physical, psychosocial, sexual, moral, and cognitive. Primary focus on how students at the secondary level meet the challenges of adolescence within the educational culture and society. Extensive coverage of the learning component as well as the motivational factor will be provided. Offered: Summer.

*Course approved for proposed teacher leader major (EDS). Program is undergoing initial review and official approval is anticipated sometime in 2011-12.

EDUC 556 Methods, Management and Technology (3)

Introduction to classroom management approaches, instructional strategies, and educational technologies that facilitate learning in diverse secondary classrooms and enable teachers of pre-adolescent and adolescent students to establish effective learning environments. Emphasis is upon developing reflective teachers who address holistic student needs and concerns. Offered: Fall.

EDUC 559 Exceptional Learners and Collaboration (3)

Overview of special education in the secondary environment. Includes characteristics of specific disabilities, laws, issues, trends, methods of collaboration with general education teachers, and transition issues. Offered: Jan Term.

EDUC 563 Curriculum, Reading, and Assessment (3)

Overview of curriculum standards, long and short-range planning, and multiple means of assessment for use in secondary classrooms. Practice in the design, implementation, and measurement of desired student outcomes in content teaching fields with special emphasis upon utilization of reading comprehension strategies effective for adolescent students. Offered: Spring.

EDUC 567 The Professional Secondary Teacher (3)

Overview of resources, ethics, and interactive and collaborative skills necessary for lifelong development as professional teachers, including knowledge of professional literature, national and state professional associations, mentoring, action research, reflective decision-making, and ethical standards. Offered: Fall.

EDUC 569 Teaching Secondary Spanish (2)

Introduction to specific methods for use in classrooms for teaching students in grades 6-12 Spanish classes. Prospective teachers of secondary level language students will observe, develop, present, and analyze for effectiveness original lessons addressing content standards of the Alabama Course of Study for Spanish. Emphasis is upon the norms and structures that contribute to safe and stimulating learning environments. Offered: Spring.

EDUC 570 Teaching Secondary English (2)

Introduction to specific methods for use in classrooms for teaching students in grades 6-12 English/language arts classes. Prospective teachers of secondary level students will observe, develop, present, and analyze for effectiveness original lessons addressing content standards of the Alabama Course of Study for English/Language Arts. Emphasis is upon the norms and structures that contribute to safe and stimulating learning environments. Offered: Spring.

EDUC 571 Teaching Secondary Mathematics (2)

Introduction to specific methods for use in classrooms for teaching students in grades 6-12 mathematics classes. Prospective teachers of secondary level students will observe, develop, present, and analyze for effectiveness original lessons addressing content standards of the Alabama Course of Study for Mathematics. Emphasis is upon the norms and structures that contribute to safe and stimulating learning environments. Offered: Spring.

EDUC 572 Teaching Secondary Science (2)

Introduction to specific methods for use in classrooms for teaching students in grades 6-12 science classes. Prospective teachers of secondary level students will observe, develop, present, and analyze for effectiveness original lessons addressing content standards of the Alabama Course of Study for Science. Emphasis is upon the norms and structures that contribute to safe and stimulating learning environments. Offered: Spring.

EDUC 573 Teaching Secondary Social Science (2)

Introduction to specific methods for use in classrooms for teaching students in grades 6-12 social science classes. Prospective teachers of secondary level students will observe, develop, present, and analyze for effectiveness original lessons addressing content standards of the Alabama Course of Study for Social Science. Emphasis is upon the norms and structures that contribute to safe and stimulating learning environments. Offered: Spring.

EDUC 591 Internship for Secondary Education (6)

Supervised field internship for prospective teachers in the secondary education (Alternative A) program, grades 6-12, in a specialty area classroom. Offered: Fall.

BIOE 504 Basic Toxicology (3)

Examination of the basics of applied toxicology for the non-technician. Course covers experimental toxicology definitions, biochemical mechanisms, and signs of exposure and insult. Includes an overview of how toxic materials enter the body, how they interact with the body, and how they are eliminated. Students learn specific toxic effects of metals, pesticides, and solvents. Meets a requirement in the biology or general science teaching field of the MSE-FYNT program. Prereq: ENVM 501 or permission of the department. Offered: Fall.

BIOE 514 Wetlands (3)

Introduction to the development, structure, and importance of wetlands, including the background necessary to understand the current controversies concerning wetland protection. Instructional methods include lecture, problem sheets, and field exercises. Meets a requirement in the biology or general science teaching field of the MSE-FYNT program. Prereqs: ENVM 501, 502, 504, and 505, or permission of the department.

BIOE 517 Environmental Biomonitoring (3)

Review of the basics of modern environmental analysis. Topics include proper field sampling and preservation, legal aspects, traceability, and chain of custody records. Aspects of a quality assurance and quality control program are addressed, as well as fundamentals of laboratory instrumentation and air quality monitoring. Meets a requirement in the biology or general science teaching field of the MSE-FYNT program. Prereqs: ENVM 501 and ENVM 505, or permission of the department.

BIOE 519 Conservation Biology and Natural Resource Management (3)

Study of the basic theories, models, and techniques of the science of conservation biology and their utilization in the conservation and management of natural resources. Meets a requirement in the biology or general science teaching field of the MSE-FYNT program. Prereqs: ENVM 502 and ENVM 505, or permission of the department.

COME 519 Argumentation and Debate (4)

Teaches students to analyze, understand, and present public arguments as practiced in law, politics, science, and other public arenas. As a result, it will give roughly equal attention to argument theory and practice. Meets a requirement in the English/language arts teaching field of the MSE-FYNT program. Offered: Summer.

ENGE 500 African-American Literature (4)

Focuses on representative poetry, fiction, essays, film, and music that reflect important movements in African-American literary history. Meets a requirement in the English/language arts teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

ENGE 510 Southern Literature (4)

Examines texts which address dominant themes in the Southern tradition and investigates the current movement of New Southern Studies. Meets a requirement in the English/language arts teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

GEOE 510 Human Geography (4)

Introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. Meets a requirement in the social science teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

HISE 521 Seminar in American History

Focuses on social, intellectual, cultural, and political developments in American history. Meets a requirement in the history or social science teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

HISE 531 Seminar in World History

Focuses on historical and cultural developments in one nation or geographic region as a model for understanding world history. Meets a requirement in the history or social science teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

HISE 541 Seminar in History and Culture

Focuses on historical and cultural developments in American, European, and/or world histories. Meets a requirement in the history or social science teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

MATE 530 Abstract Algebra for Teachers (4)

Introduces students to topics from abstract algebra, including group theory, ring theory, field theory, and rings of polynomials. Course connects content to secondary school mathematics. Meets a requirement in the mathematics teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

MATE 540 Foundations of Analysis for Teachers (4)

Introduction to the essential elements of real analysis, including a thorough discussion of the set of real numbers and the topology of the real line, functional limits and continuity, sequences and series of real numbers, the derivative, sequences and series of functions, the definite integral, Fourier series, Lagrange interpolation, Newton interpolation, and introductory splines. Course connects content to secondary school mathematics. Meets a requirement in the mathematics teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

MATE 560 Discrete Mathematics for Teachers (4)

Introduction to a variety of topics in discrete mathematics. Includes study of graph theory and various counting techniques. Other topics may include Latin squares, magic squares, block designs, and codes. Course connects content to secondary school mathematics. Meets a requirement in the mathematics teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

PHYE 510 General Physics for the Secondary Educator (3)

Instructional emphasis on basic physical principles, such as Newton's Laws, energy and momentum conservation, and the application of these principles in diverse areas of physics, such as mechanics, thermodynamics, wave motion and electricity and magnetism. Includes problem-solving and laboratory measurement techniques appropriate for the secondary education classroom. Course concentrates on developing advanced understanding of previously-learned material at both the theoretical (lecture) and practical (practicum) levels. Meets a requirement in the general science teaching field of the MSE-FYNT program. Prereq: One algebra-based course in general physics. Offered: Fall, Spring, and Summer, on rotation.

SPA 501 Advanced Methodology and Applied Linguistics (4)

Addresses two essential areas for teachers of Spanish: advanced foreign language methodology and applied linguistics. Students will examine methods unique to language teaching and language teachers and use technology for language learning. In applied linguistics students will review Spanish phonetics, second language acquisition, and bilingualism. Meets a requirement in the Spanish teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

SPA 502 Hispanic Cultures in the Foreign Language Classroom (4)

Using national standards of the American Council on the Teaching of Foreign Language, the course provides an overview of methodologies and approaches to teaching Latin American and Spanish cultures in the foreign language classroom for secondary education. Meets a requirement in the Spanish teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

SPA 503 Literature and Film of the Spanish-Speaking World (4)

Students will review masterpieces of Hispanic literature and film while developing linguistic proficiency in reading, speaking, writing, and understanding the Spanish language. They will also strengthen their understanding of literary terminology and critical analysis while exploring pedagogical strategies for teaching literature and film in their own classrooms. Meets a requirement in the Spanish teaching field of the MSE-FYNT program. Offered: Fall, Spring, and Summer, on rotation.

MSE-FYNT= Master of Science in Education (Alternative A) Fifth-Year Non-Traditional Program in Secondary Education

Doctor of Education in Educational Leadership (Ed.D.)

Curriculum

The Ed.D. program requires 60 semester credits above the master of science degree. Students first complete a 30-credit educational specialist program and then begin 30 credits of coursework for the Ed.D. degree. The coursework is organized in the following five categories as recommended by the National Council for the Accreditation of Teacher Education (NCATE):

1. Instructional Leadership
2. Strategic Leadership
3. Organizational Leadership
4. Political and Community Leadership
5. Field-Based Research

A program leading to the doctor of education (Ed.D.) degree is offered in the area of educational leadership. The doctoral program is designed for students interested in leadership issues, as applied to educational institutions. A master of science degree from an accredited institution is required for admission along with other criteria designed to select those students who provide evidence of previous academic success, exhibit leadership skills, have excellent teaching and/or administrative abilities, and show creative energy for solving educational problems.

Admission decisions will be based on a combined evaluation of the candidate's GPA or previous graduate work, qualifying score on the Graduate Record Exam (GRE), results of a writing sample, written recommendations, and a personal interview. The following requirements are required for admittance:

1. The candidate shall have earned a master of science degree from an accredited college or university.
2. The candidate shall have earned a 3.70 GPA on all previous graduate work.
3. The candidate shall have scored a minimum of 1000 (combined verbal and quantitative) on the GRE.
4. Each candidate shall submit writing samples for the purpose of assessing the candidate's ability to meet graduate school standards.
5. Each candidate must be recommended by his/her immediate supervisor (superintendent, principal) or by a professor knowledgeable of the student's previous academic and/or work experience.
6. Each candidate must submit a minimum of two additional references, one of which shall be a peer or professional colleague and the other a person knowledgeable of the candidate's character.
7. Each candidate will participate in an interview with the cohort mentor team for the purpose of assessing the candidate's leadership abilities and motivation for graduate work.

Admission to the program will be competitive. Decisions will be based on advice from the cohort mentor team and the candidate's ability to meet admission criteria.

Doctoral-Level Courses

EDLD 731 Educational Policy Development and Analysis: The Political Dimension of Schooling (3)

Examination of the factors that influence the development of school and school system policy. Exploration of the origin of policy issues, the educational policy infrastructure, and the interrelationship of educational policy to school practice, with particular emphasis on the political process as the major driving force in the policy-making arena.

EDLD 732 Foundations of Educational Inquiry (3)

Development of skills in designing and implementing research methodologies, reading and interpreting research reports, and developing strategies for converting research into action. Students develop an awareness of, and appreciation for, educational research as a tool for advancing the educational renewal agenda.

Ed.D. in Educational Leadership

Students can pursue either the Ed.S. in instructional leadership (top table) or the Ed.S. in educational administration (as seen in the 2010-2011 catalog). One or the other program must be completed before a prospective student may be admitted to the Ed.D. Program in Educational Leadership (bottom table).

Ed.S. Program Instructional Leadership Courses		Course Credits	Total Required Credits
EDUC 621	Educational Business Management	3	
EDUC 622	Seminar in Instructional Leadership	3	
EDUC 623	Organizational Innovation: Strategies & Tactics	3	
EDUC 625	Legal and Policy Issues in Education	3	
EDUC 627	Professional Development & Mentor Training for Quality Education	3	
EDUC 628	Advanced. Eval. of Teaching and Learning	3	
EDUC 629	Practicum in Quality Leadership: The Quality Improvement Analysis Project	3	
EDUC 637	Current Issues in Education & Leadership	3	
EDUC 638	Professionalism & Ethics in Education	3	
EDUC 681	Research in Certification Field	3	
Total Required Credits			30

Ed.D. Program Educational Leadership Courses		Course Credits	Total Required Credits
Educational Leadership Core			30
EDLD 731	Educational Policy Development & Analysis: The Political Dimension of Schooling	3	
EDLD 732	Foundations of Educational Inquiry	3	
EDLD 733	Field-Based Inquiry: Authentic Problems of Practice	3	
EDLD 734	Strategic Planning	3	
EDLD 735	Ethical Issues in Education: The Moral Dimension of Schooling	3	
EDLD 737	Organizational Dynamics: Creating the School of the Future	3	
EDLD 739	Foundations of Qualitative Inquiry	3	
EDLD 741	Directed Doctoral Study	2	
EDLD 743	Seminar in Educational Leadership	1	
EDLD 744	The Emerging School Superintendency: The Practice of Paradoxical Leadership	3	
EDLD 746	Behavioral Research and Statistics	3	
Educational Leadership Elective (Take one of the following as determined by the program director)			3
EDLD 738	The Learning Organization	3	
EDLD 745	The Art & Practice of Negotiation and Conflict Resolution	3	
Total Required Credits			33

EDLD 733 Field-Based Inquiry: Authentic Problems of Practice (3)

Examination of authentic problems of practice in a clinical and/or field-based environment. Through this hands-on clinical process, students demonstrate leadership, administrative and management skills, and develop their ability to function effectively as a member of a learning team. Students learn inquiry and research skills as they conduct studies on authentic problems of practice that have direct relationship to the school leader’s job.

EDLD 734 Strategic Planning (3)

Review of the skills and understanding necessary for successful management of the educational enterprise. Focus on a study of re-engineering organizations, strategic planning and decision making, the use of technology in managing the educational organization, and creating customer-focused schools and school systems.

EDLD 735 Ethical Issues in Education: The Moral Dimension of Schooling (3)

Study of ethical and moral theory and consideration of school administration as a moral activity. Central focus on helping students articulate an explicit set of values and beliefs to guide their actions. Religious, economic, social, and cultural issues that affect expectations about schooling are explored in an effort to help school administrators understand that all administrative decisions have ethical implications.

EDLD 737 Organizational Dynamics: Creating the School of the Future (3)

Investigation of emerging organizational behavior theory and its application to the development of the school and school system of the future. Major emphasis on the concept of building human capital as central to managing organizational behavior in education.

EDLD 738 The Learning Organization (3)

Exploration of the art and practice of learning organizations as applied to educational institutions. Students are provided with the knowledge needed to develop their skills in leading schools by taking a learning orientation as the major strategy for educational reform.

EDLD 739 Foundation of Qualitative Inquiry (3)

Introduction to qualitative inquiry, including an understanding of qualitative research methods and guidance in designing and implementing a qualitative research project. Includes opportunity to design and implement a qualitative study through guided instructions.

EDLD 741 Directed Doctoral Study (2)

Directed doctoral study provides the student with optimal support and direction in his/her dissertation research. The director of the dissertation and the student’s dissertation committee provide ongoing supervision and assistance for completion of the dissertation phase of the student’s doctoral program.

EDLD 742 Dissertation Research (1)

Additional support and direction in the completion of doctoral research. Student works with the dissertation committee to complete research, data analysis, dissertation writing, and dissertation debate. Grading is pass/fail only.

EDLD 743 Seminar in Educational Leadership (1)

Doctoral students are provided additional opportunities to explore current political, economic, and social issues that impact the governance of education. Students read and discuss current literature and interact with leaders from education, business, and governmental agencies.

EDLD 744 The Emerging School Superintendency: The Practice of Paradoxical Leadership (3)

In-depth study of the major tasks and related activities of school superintendents. Students are provided opportunities to study complex issues driving the changing role of school superintendents. Problem-based learning, case study analysis, and action research are also used to develop the skills necessary for leading a complex organization operating in a chaotic environment.

EDLD 745 The Art and Practice of Negotiation & Conflict Resolution (3)

Focuses on strategies of negotiation and conflict resolution such as managing organizational issues and conflicts, avoiding litigation, mediating differences, defusing crises, and dealing with difficult individuals.

EDLD 746 Behavioral Research and Statistics (3)

Designed to enhance innovative research in the doctoral program, this course builds on the introduction to research and basic statistics course (EDLD 733 Field Based Inquiry). It provides students the opportunity to develop advanced skills in quantitative research design, advanced statistics, and the use of a social science statistical software package (Predictive Analytic Software [PASW]). Students will explore a large-scale data set to pose an educational research question of their choice. Students will analyze data, interpret, and write up results. Prereq: EDLD 733. Offered: Fall and Spring.

Adult Degree Program

Administration

Laura Hendley Lee, Interim Director, Adult Degree Program,
Director of Paralegal Studies Certificate Program
Sherry Gotlieb, Director of Adult Learning Services
Stacy Harrison, Adult Degree Program Coordinator

Undergraduate Programs and Requirements

Concentrations

Administrative/Community Services
Track 1: Administrative
Track 2: Paralegal Certificate
Counseling and Human Services
Liberal Studies
Manager and Leadership Development

Nondegree Credit Program

Paralegal Certificate

Samford University's Adult Degree Program provides opportunities for personal and professional growth over the lifespan through rigorous academic programs and relationships in a Christian community. The program acts as a bridge between the community and Samford University, identifying and addressing the educational needs of the local workforce and introducing the values and meaning of the University to those with whom we connect.

Through the Adult Degree Program, the Orlean Bullard Beeson School of Education and Professional Studies awards the bachelor of science in interdisciplinary studies (B.S.I.S.) degree with concentrations in administrative/community services, counseling and human services, liberal studies, and manager and leadership development. In addition, a nondegree Paralegal Studies Certificate Program is also offered.

A minimum of 64 credits must be taken at Samford University in order to meet residency requirements for the 128-credit bachelor of science in interdisciplinary studies degree.

These B.S.I.S. programs are the most flexible of all awarded by the University and are designed specifically for adult students. The responsibility for determining the suitability of these concentrations and their applicability to particular conditions rests with the individual student. Students planning to pursue post-baccalaureate studies should review the requirements of the targeted graduate program to determine whether undergraduate-level prerequisites exist.

The certificate program allows students to develop a specific career-related skill set. Courses in the Paralegal Studies Certificate Program are offered for college credit. Professionals who have completed at least an associate of science degree may complete certificate requirements, along with any prerequisites, and earn the certificate without completing an entire degree. In addition, credit earned in paralegal courses may be applied to the B.S.I.S. degree.

Courses for all programs are conveniently scheduled in the evenings; additionally, some degree programs offer courses on the weekends. Students may be admitted to begin courses in fall, spring, or summer. The program faculty is composed of members chosen from the full-time Samford faculty and practitioners who are experts in their fields.

Portfolio Credit

Because adults often have achieved competencies beyond those of traditional undergraduate students, the Samford University faculty may award up to 30 credits for college-level learning. This nontraditional learning may come from military training or other professional experiences. This may be presented to faculty through a portfolio that is prepared by the student or evaluated through credit recommendation reference guides such as the American Council on Education's National Guide for Educational Credit for Training Programs. Both methods are coordinated through the Adult Degree Program. Students should apply for this credit during the first term

at the University. Program staff will provide guidelines for portfolio preparation to all interested students. Portfolio credit does not count toward the residency requirement at Samford University. Students must earn at least 50 percent of their total credit hours through courses taken at Samford.

Academic Regulations

Unless stated otherwise, Adult Degree Program students are bound by the same academic regulations as other undergraduates; these regulations are found in the Academic Policies and Regulations section of this catalog.

Admission Procedures for the Adult Degree Program

It is expected that students who enter this program have been out of high school for at least three years and are unable to enroll in the day program due to work schedules, family concerns or other reasons. The Adult Degree Program is the administrative office that serves these programs and students. Applications for admission are accepted each term.

To apply online, visit www.applyweb.com/apply/samforda/menu.html. To download an application form, visit www.samford.edu/adultdegree.

Admission as an Entering Freshman (No previous college credit)

Students should submit the following items to the Office of Admission:

1. Your high school transcript*: This must be mailed from the high school directly to the Samford University Office of Admission.
2. An official ACT or SAT score report (unless you graduated from high school five or more years ago.) American College Testing or the College Board must send score reports directly to the Samford University Office of Admission.
3. Application fee: \$35 (nonrefundable)
4. Admission application, completed in full, including reference forms and essay.
5. One reference. Please use the reference form included with the application.
6. Admission essay: No longer than two typed or handwritten pages.

*If you have a GED, please review the High School Equivalency information in Admission Procedures and Policies section of this catalog.

Admission as a Transfer Student

If you have attended another college or university and wish to apply to Samford University, please submit the following information to the Office of Admission:

1. One official transcript from each college that you attended. Transcripts must be mailed directly from your former institution's records office to the Office of Admission. If you earned fewer than 24 semester or 36 quarter hours of credit at other institutions, you must provide the documents required of Entering Freshmen (see above), in addition to your college transcripts.
2. Application fee: \$35 (nonrefundable)
3. Admission application, completed in full.
4. One reference. Please use the reference form included with the application.
5. Admission essay: No longer than two typed or handwritten pages.

Reference Considerations

The reference form should be completed by a nonfamily member well acquainted with your capabilities, motivation, and initiative. Employers, former employers, or former instructors are recommended.

Essay Considerations

Whether typed or handwritten, in two pages or less, please tell us about yourself, your academic background, and collegiate ambitions. We are particularly interested in why you are applying to Samford University. Please attach the essay to the application. The essay is required unless applying under the special status classification.

Admission under the Special Status Classification

Special status is a nondegree-seeking classification. You may wish to consider the special status option for one of the following reasons:

1. Time constraints prevent the completion of the regular application process prior to the beginning of a desired term.
2. You have a desire to take courses for credit but are not interested in earning a bachelor's degree at the present time (regardless of whether or not you already have a bachelor's degree).

To apply as a special status student, please submit the following items to the Office of Admission:

1. Special Status Application, completed in full. The application may be submitted without the reference forms and essay.
2. Application fee: \$35 (nonrefundable)
3. If you attended college within the last 12 months, please request a letter of good standing from the institution. Otherwise, no transcripts are required to apply under the special status classification.

Reclassification

Most students admitted under the special status classification may wish to eventually change their status to a regular, degree-seeking classification. In order to initiate a change of status, you must complete a Change of Status form and submit it to the Office of Admission. (Forms may be obtained through the Adult Degree Program office.) In order to be reclassified, you must meet the admission conditions of either a transfer student or an entering freshman and provide the additional required information and documents to the Office of Admission.

Restrictions of the Special Status Admission Classification:

1. If you are currently under suspension from another institution, you may not attend Samford University until the suspension period imposed by the previous institution has expired.
2. You are ineligible to receive federally funded financial aid until your admission status has been changed to a degree-seeking category.
3. You must have been graduated from high school for three or more years.
4. A maximum of 18 credit hours earned as a special status student will count towards a Samford degree program. Each academic department reserves the right to determine the acceptability of credits earned under this classification.
5. Credit earned as a special status student will not count towards a graduate degree.

Admission as an Audit Student

Students may also apply under audit status. See Audit Student Applicant in Admission Procedures and Policies in this catalog.

Tuition, Fees, and Financial Aid

Because Adult Degree Program students commute to and from classes, do not receive meal plans, and do not have access to the full range of degrees designed for traditional day students, the tuition fee is substantially below the day rates. Courses taken during the day carry the full-tuition rate.

Although University scholarships are not available to Adult Degree Program students, they should apply for non-University scholarships. Also, residents of the state of Alabama are eligible to receive the Alabama Student Grant if they meet the eligibility requirements. Evening students may also apply for other types of federal financial aid programs such as Pell grants and student loans. Financial Aid Applications may be requested by calling the Office of Financial Aid at (205) 726-2905.

There are few additional fees associated with evening classes aside from the cost of textbooks. Most major credit cards are accepted. (See the General Miscellaneous Fees chart on p. 34 for a list of additional fees that may apply.)

Parking

All evening students must register their automobiles with Transportation Services. There is a minimal annual charge for parking on campus.

Class Registration and Policies

Adult Degree Program students are limited to 14 credits per fall or spring semester and 10 credits per summer term without the executive director's approval.

ADULT DEGREE PROGRAM – UNDERGRADUATE EVENING STUDENT TUITION AND FEES FOR ACADEMIC YEAR 2011-2012

The following tuition and fees apply to Samford Undergraduate Evening students enrolled in the Adult Degree Program (incl the Paralegal Studies Certificate Program). Unless otherwise indicated, all fees are due on or before the e-bill payment due date. See p. 34 for payment regulations and refund notes, if applicable.

Description	Student Classification	Expense	Notes
Tuition			
All credits - Degree or Audit (including Paralegal Studies Certificate Program)	All Undergraduate Students (Evening)	\$368/credit each term	
Fees			
Application Fee for Undergraduate Admission (Evening)	All Undergraduate Students (Evening)	\$35/application	Nonrefundable; Due at time of application
Books and Supplies	All Undergraduate Students (Evening)	\$1,200 (estimate)	Cash/check/credit card due at time of purchase
Campus Life Fee	All Undergraduate Students (Evening)	\$25/term	
Reinstatement Fee (all terms)	All Undergraduate Students (Evening)	\$100/term, as applicable	
Technology Fee - Jan Term	All Undergraduate Students (Evening)	\$23/term	
Technology Fee - Summer	All Undergraduate Students (Evening)	\$35/term	
Technology Fee - Fall, Spring	All Undergraduate Students (Evening)	\$125/semester	

NOTE 1: See p. 34 for a list of General Miscellaneous Fees (Vehicle Registration/Decal, ID Replacement, etc.) that apply to ALL students.

NOTE 2: Fees are subject to change without notice. See the Bursar's Office Web site for the latest tuition and fee info: www4.samford.edu/admin/bursar/fees.html

NOTE ON PAYMENT/REINSTATEMENT: Charges incurred after the e-bill has been generated for the semester/term are due on or before the payment due date. Charges incurred during the drop/add period are due when incurred. Late fee of 5% (capped at \$100) will be applied to the past due balance if not received in the Bursar's Office by the due date. To avoid registration cancellation and reinstatement fee, students should pay all tuition and fees by the payment due date. See Billing, Payment, & Refund Schedule on p. 34 for dates for e-bill, payment due, refund availability, late fee assessment, and registration cancellation.

Bachelor's Degree Requirements

General Education Requirements

All bachelor degree programs require a minimum of 128 total credits that include 40 credits of upper-level (300-400) coursework, 3 credits of computer literacy, and 18 credits of upper-level coursework in the concentration. Specific requirements for each concentration are outlined below. A total of 64 credits should be earned outside the concentration. **MPEN 101 and MPEN 102 should be taken as part of a student's first 18 credits at Samford.** Unless otherwise specified, credits that have been used to satisfy general education requirements may not be counted as part of any concentration.

Adult Degree Program Bachelor of Science in Interdisciplinary Studies Required Courses		
	Course Credits	Total Required Credits
General Education Requirements:*		65
Natural/Computational Sciences & Mathematics	17	
Social Sciences	15	
Languages (proficiency through 102 or higher)	4	
Fine Arts	6	
Humanities	18	
Physical Education	5	
Concentration:**		47-59
Administrative/Community Services: Tracks 1 & 2	51	
Counseling and Human Services	47	
Liberal Studies	59	
Manager and Leadership Development	57	
General Electives***		4-16
Total Required Credits		128

* See General Education Requirements table for required/applicable courses.

** Hours for each concentration includes MPIS 401 (Senior Capstone), a 3-credit required course. See individual concentration tables for required/applicable courses.

*** General Elective credits vary depending on concentration chosen.

MPIS 401	Senior Capstone	3	
General Electives***			6
Total Required Credits			128

* Some counseling/psychology course substitutions may occur with advisor approval.

** Other electives may apply; see department advisor for details.

*** Acceptable transfer credits unused in other areas may apply here. Electives should be courses chosen to enhance required courses.

Paralegal Studies Certificate Program

Samford University's Paralegal Studies Certificate Program is approved by the American Bar Association. Students who currently have an associate of science or bachelor's degree may take the ten legal specialty courses described below and earn the Paralegal Certificate. In addition, all legal specialty courses are offered for academic credit and may apply towards a degree. Students who do not currently have an associate or bachelor's degree should refer to Track 2 of the administrative/community services concentration. All instructors in the Paralegal Studies Certificate Program are licensed attorneys or paralegals.

The program is committed to producing well educated, capable, and ethically aware graduates who, although they may not provide legal services directly to the public except as permitted by law, are prepared for careers as paralegals to attorneys in private, public, and corporate settings. Paralegals are professionals trained both in the substance of the law and in legal procedure who use that knowledge and those skills to provide a broad range of legal services under the supervision and direction of an attorney. Specifically, the program goals are:

1. To train students in a practical way for careers as paralegals to attorneys.
2. To promote a basic understanding of legal concepts and terms on subjects that are important to those engaged in general practice or in specialized areas of law and to equip students with legal writing and research skills that will enable graduates to perform as skilled members of a legal team.
3. To provide a general understanding of the principles of ethical and professional responsibility as these relate to lawyers and paralegals.
4. To provide a broad background in general education for development of educated, socially, morally, and ethically aware individuals.
5. To constantly upgrade and adjust the program to fulfill the needs of the community by seeking input from local attorneys, paralegals, and students.

Transfer Policy

A total of three courses may transfer into the Paralegal Studies Certificate Program, provided that all of the following are met:

1. Each course was completed in the last seven years.
2. Each course was completed at an American Bar Association-approved program.
3. Each course was completed at an institution accredited by a regional accrediting agency.
4. Each course is equivalent in content and credit hours as one currently offered through the Paralegal Studies Certificate Program, as determined by the program's director.
5. The student provides a syllabus and a program/university catalog for each course under consideration.
6. The final determination concerning transferability is approved by the program's director.

For more information about the Paralegal Studies Certificate Program, call (205) 726-2898.

Credit Courses

ADMINISTRATION/BUSINESS

MPAC 200 Survey of Accounting (3)

Introduction to the preparation and interpretation of accounting information with special emphasis on the needs of non-business majors. Course covers both the use and reporting of accounting information generated for external audiences (creditors and the investing public) as well as that developed for internal decision-making. Offered: Summer and Fall.

MPBL 352 Legal Environment of Business (3)

Study of the fundamental areas of law that impact business and the government's role in the development of those laws. Through the use of cases and lectures, the interrelationship of these two dominant institutions of society is analyzed. Specific areas to be addressed include the regulation of employment, the law of contracts, torts, bankruptcy, and several areas of the Uniform Commercial Code (UCC). Offered: Spring.

MPEC 200 Survey of Economics (3)

Survey of the macroeconomic theories that explain the behavior of the world economy and the national economies that comprise it. Course covers the micro-economic relationships that explain the operations of individual consumer/supplier markets. Offered: Fall.

MPFI 300 Survey of Finance (3)

Introduction to financial management concepts and methods of analysis. Students gain comprehension of the central tenets of financial management including: 1) analyzing the risk return tradeoff, 2) evaluating the time value of money, 3) cash flow examination and valuation, 4) applying capital market efficiency theory to case applications, and 5) the analysis and understanding of the financial health of an organization. Prereqs: MPAC 200, MPEC 200, and MPMA 210. Offered: Spring.

MPHR 361 The Injured and Absent Employee (3)

Introduction to the human resources professional's role in the laws and regulations affecting injured and absent employees. Focus on the states' various approaches to workers' compensation (i.e., medical benefits and limited compensation), the Family and Medical Leave Act (FMLA) and the Americans with Disabilities Act (ADA). Also covered: various other aspects of state and federal law the human resources professional will need knowledge of to administer to injured and absent employees. Prereqs: MPMG 473 and MPBL 352, or equivalent. Offered: Summer.

MPMG 300 Survey of Management (3)

Examination of the content, skills, and organizational and societal settings of management duties. Exploration of the sources of managerial expertise and their links to the performance of all types of organizations. Prereqs: MPAC 200 and MPEC 200. Offered: Fall.

MPMG 470 Negotiation/Conflict Resolution (3)

Overview of contemporary theories and ideas in the field of negotiation. Emphasizes the practical application of negotiation in the business world and/or everyday life. Prereqs: MPAC 200 and MPEC 200.

MPMG 471 Advertising/Public Relations (3)

Overview of the advertising and public relations process, including the strategies behind successful campaigns. Focuses on real world settings as they relate to account management, creative development, production, media, and client service. Evaluation of creative executions and their potential impact on the end user. Prereqs: MPAC 200 and MPEC 200. Offered: Fall.

MPMG 472 Leadership: Paradigms and Roles (3)

Examination of leadership, the influencing of others to accomplish something you think is important. Leadership theories, applications, and examples will be reviewed. Prereqs: MPAC 200 and MPEC 200. Offered: Summer.

MPMG 473 Human Resource Management (3)

Study of one or more of the challenges arising from changes in the business environment that managers face. Content is adapted by the instructor to conform to the challenges of the day. Prereqs: MPAC 200 and MPEC 200. Offered: Spring.

MPMK 300 Survey of Marketing (3)

Introduction to the concepts of marketing management with emphasis on a balance between theory and practice. Individual topics include demand analysis, marketing research, distribution channels, product policy, and marketing strategy. Prereqs: MPAC 200 and MPEC 200. Offered: Spring.

MPML 310 Supervision (3)

Case-study intensive course. With the use of written as well as video case studies, the student will be placed in the role of a supervisor. Students will acquire the theoretical knowledge and refine the interpersonal communication, decision-making, conflict resolution, and other supervisory skills most important for immediate and future career success. Prereq: MPMG 300. Offered: Fall.

ART

MPAR 300 Art Appreciation (3)

Enables the student to understand artistic terms, methods, and philosophy, to recognize styles in periods of art history, and to develop aesthetic experiences that will better prepare the student for living in society.

BIOLOGY

MPBI 105 Principles of Biology (4)

Study of the principles of life common to all living organisms. LEC, LAB.

MPBI 107 Contemporary Biology (4)

Designed for non-biology majors. Study of the interactions of humans within the biological world. Includes laboratory.

MPBI 110 Human Biology (4)

Study of the biological principles of the human body from a human biological anatomical, physiological, and an ecosociological perspective. May be used as a prerequisite for upper-level biology courses. Includes laboratory.

MPBI 111 Animal Biology (4)

Study of animal life from a cellular to an organismal level with emphasis on animal taxonomy and environmental relationships. May be used as a prerequisite for upper-level biology courses. Includes laboratory.

MPBI 112 Plant Biology (4)

Study of the form, function, and classification of the plant kingdom. Includes laboratory. Prereq: BIOL 105 or equivalent.

MPBI 324 Introduction to Toxicology (4)

Designed for the nonscientist and especially for those in the business and paralegal certificate concentrations. Acquaints the student with the scope and history of toxicology, provides basic information on home and workplace health and safety, and covers OSHA/EPA regulations relevant to citizens' rights-to-know with respect to toxicants in their communities and workplaces. Includes laboratory. Prereq: Any 100-level biology.

MPBI 326 Introduction to Environmental Science (4)

Study of the relationship of humans with the environment and current environmental problems. Prereq: Any 100-level biology.

MPBI 327 Conservation Ecology (4)

Study of the basic principles of ecology that relate to the utilization and conservation of the earth's biological resources. Includes ecosystem dynamics, population ecology, wildlife and fisheries techniques, the economics of conservation, and issues relating to the protection of endangered species. Prereq: Any 100-level biology.

MPBI 436 Ecology (4)

Study of the interactions of organisms and their environment with emphasis on the dynamics of natural communities. Prereq: One course in biological sciences.

CLASSICS

MPLA 101 Elementary Latin I (3)

Introduction to the Latin language and culture, aimed at developing the ability to understand Latin through speaking, listening, reading, and writing.

MPLA 102 Elementary Latin II (3)

Introduction to the Latin language and culture, aimed at developing the ability to understand Latin through speaking, listening, reading, and writing. Prereq: MPLA 101 or equivalent.

MPLA 103 Elementary Latin III (3)

Introduction to the Latin language and culture, aimed at developing the ability to understand Latin through speaking, listening, reading, and writing. Prereq: MPLA 102 or equivalent.

MPLA 453 Directed Readings in Latin (3)

Advanced reading course designed for secondary teachers or prospective teachers. Course includes discussion of appropriate secondary teaching assignments.

COMMUNICATION STUDIES

MPCS 215 Oral Communication (3)

Study of the techniques governing speeches to inform, convince, and actuate. Course covers speech composition, delivery, and audience analysis. Course includes an overview of interviewing and a discussion of the basic elements of business communications.

MPCS 221 Interpersonal Communication (3)

Projects, experiments, readings, and class participation designed to help students to identify interpersonal communication in human relationships, to appreciate its effectiveness, and to develop skills in its use.

MPCS 415 Persuasion (3)

Analysis of persuasion as a decision-making tool in a democratic society. Various theories of persuasion are analyzed with attention given to factors such as attention, perception, needs, values, credibility, winning belief, and ethics. Prereq: MPCS 215 or permission of the instructor.

MPCS 453 Professional Communication (3)

Study of theories and research of rhetorical strategies as practiced in various professional discourse communities. Applications of theory are made to a number of writing contexts, including business and technical communication. Prereq: MPEN 102.

COUNSELING AND HUMAN SERVICES

MPCN 202 Marriage and the Family (3)

Study of the relationships in modern personal and family living. Covers dating, marriage, stages of family life, and intra-family relationships including husband-wife, parenting, and extended family. Offered: Spring, on rotation.

MPCN 245 Introduction to the Helping Professions (3)

Study of the fundamentals of basic human relations and an introduction to the basic principles, techniques, and theories of the counseling process. Offered: Fall.

MPCN 247 Basic Counseling Theory and Practice (3)

Study of the stages and factors involved in the process of counseling. Practical applications of counseling form the basics of instruction with emphasis given to the relationships of counseling to the counselor and counselee. Prereq: MPCN 245. Offered: Spring.

MPCN 256 Becoming a Self-Regulated Learner (3)

Designed to assist adult learners returning to academic study to acquire learning and memory strategies and tactics. Provides students with research information and individual assessment feedback to develop a learner profile contributing to more effective information management. Offered: Summer.

MPCN 300 Death and Dying (3)

Development of personal death awareness and introduction to some of the aspects associated with counseling clients that are facing death, as well as the concerns of members of their families who go through the grief process. Offered: Spring.

MPCN 331 Family Dynamics (3)

Analysis of family functioning, strengths, and weaknesses, as well as how family members relate to each other. The importance of family roles and expectations, the impact of family origin on self-esteem and life choices, patterns of communication and conflict management are highlighted. Prereq: MPEN 102. Offered: Fall.

MPCN 332 Directed Studies in Counseling (3)

Students obtain individual guidance in researching a special area of interest in counseling, organizing the research, and sharing it with the class. Involves library research, independent reading, and reporting. Offered: Spring, on rotation.

MPCN 342 Case Studies (3)

Students learn from the process and techniques of developing case studies as well as their appropriate uses. A portfolio of case studies is developed with special emphasis given to family problems. Prereqs: MPCN 245 and MPEN 102. Offered: Spring, on rotation.

MPCN 343 Human Development (3)

In-depth study of physical, mental, and personality development across the life span from conception to death, and the influences of the environment on development. Emphasis on preschool years as well as the characteristics and needs at different development stages. Offered: Fall.

MPCN 344 Industrial Counseling (3)

Introduction to the role of the counselor and the psychologist in the modern industrial or business setting. Emphasis on human relationships. Offered: Fall.

MPCN 349 Basic Psychopathology (3)

Investigation of the major categories of disorders associated with personality pathology. Addresses symptomatology, therapeutic approaches and prognosis associated with specific disorders, anxiety-based disorders, somatoform disorders, dissociative disorders, psychoses, organic brain disorders, and psychophysiological disturbances. Offered: Spring, on rotation.

MPCN 350 Small-Group Process (3)

Introduction to various applications of group therapy, as well as other group problem-solving activities. Group dynamics and group management techniques are introduced. Attention is given to legal and ethical factors related to managing groups. Offered: Spring.

MPCN 351 Invitational Concepts (3)

Introduction to Purkey's Invitational Model with emphasis on applications of this model to areas in which people interact and work together. Focus on identification of unrealized potential in self and others, and applications of the model that may be used to improve business and educational environments. Offered: Fall.

MPCN 441 Personal Growth and Development (3)

Introduction to basic areas of growth and adjustment encountered by members of our culture. Emphasis is placed on developing a well-integrated personality, self-adjustment, and self-management. Prereq: MPEN 102. Offered: Summer.

MPCN 442 Life Crisis Management (3)

Students learn how to help an individual cope with an unforeseen crisis in life including divorce and/or separation, chronic conditions, and death. Prereq: MPEN 102. Offered: Summer, on rotation.

MPCN 446 Introduction to Tests and Measurements (3)

Study of the measurements used in psychology for evaluation purposes. Attention is given to scoring, validity, reliability, individual and group tests, interest inventories, personality measurement, and an assessment of personality. Prereq: MPEN 102. Offered: Fall.

MPCN 448 Field Experience in the Helping Professions (3)

Designed to supplement knowledge and skills acquired in the classroom by applying academic principles in a practical setting. Includes participation in an externship as well as on-campus seminar meetings with the instructor. Students are enrolled only by permission of the instructor.

MPCN 450 Issues in Counseling and Human Services (3)

A study of the historical issues that have influenced counseling as well as the current issues in the profession. Problems and possible solutions are addressed. Prereq: MPEN 102. Offered: Spring.

MPCN 456 Special Topics in Counseling and Human Services (1-3)

Weekend or special seminar courses. Topics vary. May be taken up to three times for a maximum of nine credits.

EDUCATION

MPED 307 Foundations of Leadership (3)

Introduction to the foundations of leadership and the importance of principled leadership in all areas of life. Offered: Spring.

ENGLISH

MPEN 101 Oral and Written Communication I (3)

Introduction to written and oral communications. Students gain proficiency in the composing process and in verbal presentations. Students must pass this course with a grade of C- or better to advance to MPEN 102.

MPEN 102 Oral and Written Communication II (3)

Continuation of MPEN 101 with additional practice in composition and verbal communication. Special emphasis is placed on learning how to apply critical thinking skills to the process of reading and incorporating sources into their documents. A major project in this course is the academic research paper. Students must pass this course with a grade of C- or better to advance to sophomore literature courses. Prereq: MPEN 101 with a grade of C- or better.

MPEN 201 Major British and Irish Authors (3)

Study of one or two major authors from each century (16th to the 20th) and includes drama (Shakespeare), prose fiction (Jane Austen), and poetry (William Wordsworth, Elizabeth Barrett Browning, and others). Provides depth of study on a few great authors, rather than a broad survey. Prereq: MPEN 102 with grade of C- or better.

MPEN 209 Special Topics in Literature (3)

Exploration of literary works (prose fiction and drama) and films that are connected thematically. Current offerings include "Literature of the Family" that explores relationships between family members and "The Cross-Cultural Experience" that presents works in which the protagonist interacts with people of another race or culture, resulting in situations that produce cultural misunderstandings and a variety of conflicts. Prereq: MPEN 102 with grade of C- or better.

MPEN 211 Major American Authors (3)

Study of American literature from its beginnings to the present, emphasizing major authors and major literary trends, such as the American Renaissance and the Harlem Renaissance. Prereq: MPEN 102 with grade of C- or better.

MPEN 300 Creative Writing (3)

Survey of styles, techniques, and trends in current fiction and poetry with emphasis on learning the craft of imaginative writing. Prereqs: MPEN 101, MPEN 102, and a literature course.

EXERCISE SCIENCE AND SPORTS MEDICINE

MPPE 122 Fitness Walking and Strength Training (2)

Designed to incorporate two aspects of positive health and fitness: strength training to enhance muscular strength and endurance, and fitness walking to develop the cardiorespiratory system. Other topics include stress management, behavior modification, body composition, common fitness injuries, and flexibility.

MPPE 222 Relaxation/Stress Management (3)

Discussion of the nature of stress, the relationship between stress and the body, mind, and soul, as well as effective coping strategies for handling stress. Techniques such as relaxation, imagery, meditation, cognitive restructuring, and time management are demonstrated and practiced.

MPPE 231 Personal and Community Health (3)

Teaches basic fundamentals of general health. Emphasis is placed on such topical areas as personal fitness, nutrition, mental and emotional health, and community and environmental health.

HISTORY

MPHI 101 World History I (3)

Survey of selected cultures from prehistory to 1500 within their political, economic, and social frameworks.

MPHI 102 World History II (3)

Survey of selected cultures from the Renaissance to the present within their political, economic, and social frameworks.

MPHI 217 Early America to 1877 (3)

Social, cultural, and political overview of American history from its colonial beginnings through the end of Reconstruction. Required of majors.

MPHI 218 Modern America since 1865 (3)

Social, cultural, and political overview of American history from 1865 through the present.

MPHI 499 Special Topics in History (3)

Unique, one-time offerings.

INTERDISCIPLINARY STUDIES

MPIS 401 Senior Capstone (3)

Students seeking a degree in Interdisciplinary Studies (B.S.I.S.) are required to complete the senior seminar course. Students will demonstrate ability to critically analyze a problem related to their interdisciplinary program by completing a senior project related to their concentration and/or career. In addition, students will compile a portfolio that documents current educational accomplishments and projected learning needs. Prereq: Senior status; student must be within 12 hours of completing degree requirements. Offered: Spring.

MATHEMATICS AND COMPUTING

MPCO 100 Introduction to Computing (3)

Survey course that includes a history of computing, description of system components, programming fundamentals, discussion of programming languages, processing methods, and applications. Introductory hands-on experience with word processing, spreadsheet, database, and communications software and hands-on exposure to the processes of problem-solving and programming.

MPCO 101 Software Applications (3)

Conceptual understanding of the four major types of business software applications, including word processing, spreadsheet, database, and presentation software. The course covers unique qualities of each (strengths and weaknesses), proper usage of each, and interconnections among them. Prereq: MPCO 100.

MPCO 312 Empowering Managers to Understand IT (3)

Study of the role information technology plays as an enabler of business. Students will learn how to properly work with information technology (IT) resources in the workplace and how to fully leverage the benefits that IT can provide. Prereq: MPAC 200. Offered: Fall.

MPMA 110 Contemporary Mathematics (3)

Develops problem-solving skills by studying a wide range of contemporary applications of mathematics. Connections between contemporary mathematics and modern society are stressed.

MPMA 210 Statistics (3)

Designed as an algebra-based introductory course in statistics. Covers descriptive and inferential statistics with probability decision-making skills necessary for today's complex civilization. Covers frequency, probability, binomial, normal, chi-square and sampling distributions, estimation, hypothesis testing for one and two populations, linear correlation and regression, and analysis of variance. Uses the graphing calculator and statistical computing packages. Prereqs: MPMA 110 or equivalent.

MUSIC**MPMU 200 Music Appreciation (3)**

Introduction to historical and stylistic developments in music for non-music majors. Emphasis is placed upon listening, through both recordings and live concerts.

PARALEGAL**MPPG 121 Introduction to Paralegal Studies (3)**

Examination of the concept, qualifications, and role of the paralegal. Selected topics include legal terminology, the levels of government, court structure and operation, the structure of the American legal system, basic interviewing and investigative techniques, the ethical considerations governing the lawyer-paralegal-client-public relationships, and the role of the paralegal in several substantive law areas. Students will also be exposed to technologies currently in use by paralegals including electronic filing and case management software.

MPPG 123 Legal Research and Writing (3)

The student will acquire basic techniques and practical skills required in the use of legal materials. Problem assignments require the student to use many of the standard legal written authorities. Students will use the Cumberland School of Law library in the preparation of case briefs, memoranda, and appellate briefs. Prereq or Co-req: MPPG 121.

MPPG 227 Estates and Trusts (3)

Examination of the substantive and procedural law of wills, trusts, and estate administration. The student drafts a will and a trust, and prepares administration documents. Prereqs: MPPG 121 and MPPG 123.

MPPG 229 Litigation (3)

Examination of the process of litigation. Special emphasis is placed on the pre-trial stage including pleading and discovery. The student performs tasks commonly performed by litigation paralegals. Prereqs: MPPG 121 and MPPG 123.

MPPG 301 Employment Law (3)

The student will become familiar with transactions and will prepare documentation for the state and federal laws with respect to employment, sexual harassment, employment discrimination under Title VII and state law, litigation in the state and federal courts regarding employment matters, the Americans with Disabilities Act and its effect on employment, and the Family and Medical Leave Act and its effect on employment. Prereqs: MPPG 121 and MPPG 123.

MPPG 302 Environmental Law for Paralegals (3)

Comprehensive overview of environmental law including its relationship with political science, technology, economics, and science. In addition to examining current law and policy, this course will review the history of environmental law including the historical legal responses to environmental contamination. Prereqs: MPPG 121 and MPPG 123.

MPPG 303 Technology in the Law Office (3)

General introduction to the use of computers and of legal specialty computer software programs in the modern law office. The course includes hands-on computer exercises using professional software programs frequently used in the law office by paralegals. Prereqs: MPPG 121 and MPPG 123.

MPPG 304 Family Law (3)

Examination of the substantive law of domestic relations. Topics covered include annulment, divorce, custody, and adoption. The student will learn the procedures used in this area and will prepare commonly filed documents and pleadings. Prereqs: MPPG 121 and MPPG 123.

MPPG 305 Administrative Law for Paralegals (3)

Overview of administrative law, looking at the substantive and procedural aspects of various administrative law agencies, with emphasis on providing skills to practice in administrative law. Prereqs: MPPG 121 and MPPG 123.

MPPG 306 Debtor/Creditor Law (3)

Examination of the most frequently occurring topics of debtor-creditor law as they occur in a general law practice. Topics include creditor collection devices, Article 9 of the Uniform Commercial Code (UCC), and bankruptcy. Prereqs: MPPG 121 and MPPG 123.

MPPG 307 Criminal Law (3)

The student will learn the common law and statutory definitions of crimes (including crimes against persons and property), how to apply defenses to crimes, the application of the constitutional rights of the accused, and the procedures of criminal prosecution. Prereqs: MPPG 121 and MPPG 123.

MPPG 308 Real Estate Law (3)

Examination of the substantive law of real property. Training in the study of the law of real estate transactions. Topics include general principles of real estate law, conveyancing, loan-closing procedure, sale of real estate and sales contracts, title examination, deed preparation, foreclosures, leasing of real estate, option contracts, and recordation of various instruments. Prereqs: MPPG 121 and MPPG 123.

MPPG 309 Legal Drafting and Transactions (3)

Review of the basic skills necessary for drafting documents for legal transactions. Includes discussion about drafting issues, both legal and non-legal, and the law as it relates to drafting, including rules of interpretation (such as the cannons of construction) and substantive law issues that relate to particular transactions. Students will complete writing exercises that test their knowledge of and ability to apply the materials, including the ability to avoid inadvertent ambiguity, to properly define terms and concepts, to make appropriate stylistic choices, and to draft and revise documents. Prereqs: MPPG 121 and MPPG 123.

MPPG 310 Torts (3)

Provides students with the basic legal terms of torts and personal injury law; helps students identify the various types of torts and the defenses a defendant can raise to each; and provides students with practical, hands-on experience in learning the related medical terminology and in drafting the documents commonly used in this area of law. Prereqs: MPPG 121 and MPPG 123.

MPPG 311 Corporate Law (3)

Broad overview of two important areas of the law: (1) the law of contracts and (2) the law of business organizations. The contracts part of the course covers forming contracts, restitution, statute of frauds, contract interpretation, modification, and other topics. The business organizations part of the course covers an overview of the principle legal issues that arise in business relationships over the life cycle of the business, including an explanation of the basic concepts that govern these relationships, the specific examples of how they apply, and the similarities and dissimilarities in the business associations covered. Prereqs: MPPG 121 and MPPG 123.

MPPG 410 Advanced Paralegalism (3)

Designed to prepare the student for entry into the legal community through intensive study of the paralegal profession and additional development of the student's organizational, communication, and critical analysis skills using modalities such as portfolio preparation, mock interviews, and advanced research and writing assignments. Prereqs: MPPG 121 and MPPG 123, and 18 hours completed in concentration.

PHILOSOPHY**MPPG 311 Philosophy of Religion (3)**

Investigation of philosophical issues in religious thought, including such issues as proofs and disproves of God's existence, the meaning of religious language, truth claims in different religions and related matters.

MPPI 401 Business Ethics (3)

Examination of the application of ethics to business, specifically how to think and act ethically in business. Concentrates on ethical analyses of moral issues involved with the foundations and operations of business. Become familiar with the main tenets of thinking ethically, of virtue-based ethics, deontological ethics, and utilitarianism, and how to apply these insights toward and ethical evaluation of business. Offered: Fall.

POLITICAL SCIENCE

MPPO 211 American National Government (3)

Introduction to the political process in America with a focus on national political institutions.

MPPO 499 Special Topics in Political Science (3)

Unique, one-time courses offered either by visiting professors or as experimental advanced courses by members of the department.

PSYCHOLOGY

MPPS 101 General Psychology (3)

Comprehensive overview of the scientific study of behavior and mental processes. Topics include physiology, sensation and perception, learning, cognition, development, personality, and social psychology. This course is a prerequisite for all other courses in psychology.

MPPS 205 Life-Span Development (3)

Survey of human thought and behavior from conception to death. Emphasis is placed on physical, moral, social, emotional, and cognitive development at each stage of life span. Prereq or Co-req: MPPS 101.

MPPS 411 Special Topics in Psychology (3)

Examination of a particular topic in psychology. Students may take the course more than once, if the topics are different, with permission of department chair. Prereq: Upper-level standing or permission of department chair.

RELIGION

MPRE 101 Old Testament Survey (3)

Survey of the history and writings of the Old Testament, seeking to sensitize students to the Old Testament's moral and cultural significance.

MPRE 102 New Testament Survey (3)

Survey of the history and writings of the New Testament, seeking to sensitize students to the New Testament's moral and cultural significance.

MPRE 201 Introduction to World Religions (3)

Investigation of the world's major living religions of both the Eastern and Western worlds.

MPRE 300 Contemporary Ethical Issues (3)

Study of critical and ethical issues confronting Christians in today's world, with attention to ethical decision-making.

MPRE 331 Prophets (3)

Exploration of the background and message of Israel's great preachers, major and minor prophets of the Old Testament, and the relevance of their insights for today. Prereq: MPEN 102.

SOCIOLOGY

MPSO 100 Introductory Sociology (3)

Basic sociological concepts are used in the analysis of contemporary and past social life.

MPSO 203 Contemporary Social Problems (3)

Analysis of such current social issues as population growth, crime, poverty, war, and agedness.

MPSO 348 Sociology of Family (3)

Study of how sociological theory and research applies to an understanding of the family in the social context including family as a social group, family as an institution within society, and family in global perspective across different societies. Critical questions include: What are the constraints of society on the family? What purpose does the family serve in the larger society? What roles do people play in the family? Who and what determines the assignment of those roles? What part does intimacy and sexuality play in family life? How do persons become involved in conflict and violence in families? What are the similarities and differences in family globally?

MPSO 401 Social Psychology (3)

Examination of the interaction between the individual and the social environment as a major factor in human behavior.

MPSO 406 Race and Ethnic Relations (3)

Description and analysis of the phenomena that arises when groups of people who differ racially and/or culturally come into contact with one another.

SPANISH

MPSP 101 Elementary Spanish I (4)

Introduction to Spanish language and culture, aimed at developing basic proficiency in understanding, speaking, reading, and writing Spanish. Offered: Fall.

MPSP 102 Elementary Spanish II (4)

Continuation of MPSP 101. Prereq: Successful completion of MPSP 101. Offered: Spring.

THEATRE

MPTH 300 Theatre Appreciation (3)

Study of the historical and literary significance of drama through the ages. The course follows the development of the theatre, paying particular attention to literary examples of each period and current trends of the modern theatre.

WORLD LANGUAGES AND CULTURES

Many additional language courses are offered in the evenings. See the World Languages and Cultures section within the Howard College School of Arts and Sciences for more information.

Samford After Sundown Professional and Personal Development

Administration

Suzanne Montgomery, Director of Samford After Sundown

Noncredit Programs and Requirements

Noncredit Programs

Alabama Naturalist Certificate
Healthcare Interpreter Training Certificate
Pharmacy Technician Certificate
Photography Certificate
Miscellaneous Online and On-Campus Courses

Mission

Samford After Sundown creates a bridge between the Birmingham community and Samford University, identifying and addressing the educational needs of our local workforce and introducing the values and meaning of the University to the individuals we serve. Samford After Sundown contributes to the fulfillment of the mission of Samford University by offering noncredit programs that respond to the educational needs of individuals, businesses, industries, and government agencies in the community, as well as to professional groups within the region.

Noncredit Curriculum

The noncredit curriculum encompasses two programmatic thrusts: professional development and personal/intellectual enrichment. Programs are offered on a quarterly basis and include courses, conferences, workshops and seminars. Most programs are open to everyone without entrance restrictions and a few programs require the completion of prerequisite courses. Instructors include full-time Samford University faculty members and community members with significant expertise in a particular field.

Noncredit programs employ a variety of methods to deliver learning material. Many courses are offered on campus, taking advantage of Samford's state-of-the-art classroom and laboratory facilities. Other courses are available online, offering convenient twenty-four hour access to virtual classrooms. Samford After Sundown works with local businesses and non-profit organizations to design and administer customized training programs onsite to satisfy specific learning needs and objectives.

Noncredit courses offered as a means of personal development span a wide array of topics such as painting, photography, creative writing, languages, fitness and recreation. Continuing Education Units (CEUs) are awarded to each person who satisfactorily completes a noncredit activity. One CEU corresponds to ten contact hours of participation in an organized continuing education experience. A permanent record of CEUs is maintained and a transcript of CEUs earned at Samford University may be obtained upon request.

Noncredit Certificate Programs

Samford After Sundown offers noncredit certificate programs that provide comprehensive professional training. These include the Alabama Naturalist Certificate Program, Healthcare Interpreter Training Certificate Program, the Pharmacy Technician Certificate Training Program and the Photography Certificate Program.

The **Alabama Naturalist Certificate Program** is the first of its kind offered in Alabama. The mission of the program is to raise awareness and develop an appreciation of the diversity of wildlife and their habitats in Alabama. Participants are trained in the fundamentals of natural history, nature interpretation and teaching, and are instilled with an appreciation of the importance of responsible environmental stewardship. Students in the Alabama Naturalist Program are required to complete nine core courses including Alabama Ecosystem, Birds, Fishes/Aquatic Environments, Flowering Plants, Geology and Soils, Insects and Butterflies, Mammals, Reptiles and Amphibians, and Trees and Flowering Plants of Alabama, as well as an approved volunteer naturalist project in association with an Alabama nonprofit organization. The Alabama Naturalist Certificate Program also assists in the development of a core of highly trained, qualified volunteers to assist government agencies, schools, and nonprofit organizations with research, outdoor recreation development, and environmental education and preservation. Upon completion of the nine basic core classes and the volunteer project, participants receive a final certification diploma. Alabama naturalists may keep their certification current by successfully completing a minimum of two elective classes through Samford After Sundown annually.

The **Healthcare Interpreter Training Certificate Program** is designed to train bilingual and bicultural students to develop the awareness, knowledge and skills necessary for effective language interpretation in healthcare settings. Through academic preparation, practical skills training, and service in community-based healthcare settings, certificate candidates learn the roles and responsibilities of a healthcare interpreter, basic knowledge of common medical conditions, treatments and procedures, language and cultural nuances for specific communities, and advanced interpreting skills. The nine-month program consists of over 200 hours of coursework taught one evening each week and two weekend days each month. To qualify for admission, prospective students must have completed at least a high school diploma and must be bilingual in English and Spanish, as determined by verbal and written pretests.

The **Pharmacy Technician Certificate Training Program** prepares students to become part of the fastest-growing profession in the healthcare industry. Pharmacy technicians assist pharmacists with technical tasks and are employed in community and hospital pharmacies, prescription processing companies, home health care organizations and other pharmaceutical industries. Samford University's Pharmacy Technician Certificate program is taught by Samford University pharmacy faculty and registered pharmacists and introduces the necessary clerical, business, and technical aspects of the industry. The program includes hands-on experience in sterile compounding and processing prescriptions. Students are prepared to take the national certification examination offered by the Pharmacy Technician Certification Board to become a Certified Pharmacy Technician (CPhT).

The **Photography Certificate Program** is designed to enable students to function at a high level in the photographic market. The program requires students to complete a core curriculum of courses consisting of Basic, Intermediate, and Advanced Photography; Artificial Lighting; Post Processing and Professional Portfolio Development along with a number of electives. The student selects an advisor from among the photography instructors to guide them through the process and prepare a final portfolio for judging by a panel of experts. Students who successfully complete the requirements will be awarded the Photography Certificate of Achievement at award ceremonies held twice annually each year.
