

**PROFESSIONALISM FRIDAYS
P1 – P3 CLASSES
FALL 2015**

Description

Common time block among the pharmacy students allowing for vertical and horizontal integration of course materials that further augments student learning and development into a practice-ready pharmacist. A primary focus of these sessions is activities that address the MSOP Ability-Based Outcomes. This time block is NOT designed for additional course lecture time.

Date and Time

Professionalism Fridays are scheduled every Friday (in both semesters) from 10:00am to 11:50am.

PLEASE NOTE: In the past, Professionalism Friday time has been used to make-up lost class time due to adverse weather or other unforeseen events. Thus be prepared to attend a Friday session (i.e., could be used for rescheduling an exam) even though no session has been listed on a specific Friday.
