

Campus Resource List

ACADEMIC SUCCESS CENTER

Dwight Beeson Hall 101
success@samford.edu
726-2698

The ASC is a resource center designed to facilitate students' successful transition through the university. First-year and transfer students are particularly encouraged to take advantage of services such as tutoring, assistance in declaring or changing majors, and Samford Success, a program that features enhanced academic advising, peer mentoring, and connection to other campus resources.

CARE TEAM

Burns 205
alrobins@samford.edu
726-2825

The CARE Team assists students of concern with accessing campus resources, and provides individualized help to students experiencing difficulties. For students of high concern who may need a referral, the CARE Team Form can be accessed through the Values Advocacy webpage by clicking on "Care Team" on the right side of the page.

CAREER DEVELOPMENT CENTER

University Center 205
career@samford.edu
726-2980

CDC services are available to all Samford students and alumni. Staff offer assistance with major selection, career counseling, resumes and cover letters, internship and experiential education, and practice interviews for jobs and graduate programs. Students can also research potential employers and search for off-campus jobs.

COMMUNICATION RESOURCE CENTER

Brooks Hall 222
crc@samford.edu
726-2137

The CRC offers free tutoring in the areas of writing, speaking and critical reading. Students learn to write and speak more effectively and more critically through the CRC's assistance. Students can also receive assistance with understanding Cultural Perspectives texts and feedback on public speaking for Communication Arts.

COUNSELING SERVICES

Dwight Beeson Hall 203
counseling@samford.edu
726-2065

Offers individual counseling, support groups, workshops, and crisis intervention, all free of charge to currently enrolled students. Services may include: stress management, substance/alcohol abuse, eating disorders, anxiety, depression, and adjusting to college. Staff can also assist in referring students to off-campus resources as necessary.

DISABILITY RESOURCES

University Center 205
disability@samford.edu
726-4078

DR is the central campus resource for students with disabilities, working to facilitate accommodations as well as access to programs, services and facilities. DR meets with students to discuss their needs and help determine eligibility for accommodations in the learning environment and housing, and to address any concerns regarding accessibility.

OFFICE OF SPIRITUAL LIFE

Burns 203
osl@samford.edu
726-2825

OSL equips students with opportunities to deepen spiritual maturity through retreats, missions, events, campus worship and prayer, home group meetings, and other

activities. Students have many opportunities to engage in vibrant worship, experience authentic community, and embrace Christian mission.

UNIVERSITY HEALTH SERVICES

Lower East side of Seibert Hall
SUhealth@samford.edu
726-2835

UHS partners with St. Vincent's Health System to serve the campus community. As a full-functioning healthcare facility staffed by a physician, the clinic provides primary medical care services, including assessment and treatment for acute and chronic illness and injuries, health maintenance and management of chronic conditions, x-ray and labs, and vaccinations.

TECHNOLOGY SERVICES HELP DESK

Davis Library 012
support@samford.edu
726-2662

Technology Services provides technologies to support students, including assistance with classroom technology, Wi-Fi, email and support. Technology Services offers telephone, email, and in-person support to all Samford students for reporting system outages or other problems, as well as problem resolution for frequently encountered problems.

UNIVERSITY LIBRARY

Davis Library
library@samford.edu
726-2846

The University Library provides research assistance at the "AskUs" desk, via online chat, or by scheduling a consultation with a librarian (reference@samford.edu or 726-2196). Students can search for journals, articles, and periodicals or books and other materials by using "MultiSearch" on the library's webpage. The main academic computer lab is also located on the lower level of the library.
