IDA V. MOFFETT SCHOOL OF NURSING

prepares you TO ANSWER THE CALLING OF YOUR LIFE

LIFE IN IDA V. MOFFETT SCHOOL OF NURSING

Ida V. Moffett School of Nursing insightful in its students the fundamentals of compassionate nursing care from a Christian perspective. The school's extensive academic courses, simulation experiences and clinical rotations more than prepare students for the role of registered nurse. The faculty and clinical instructors invest in you not only as a future nurse, but also as an individual. Upon graduating from Samford's nursing school, you carry on the renowned Ida V. Moffett legacy of outstanding, holistic, professional patient care.

—Marie Yarbro, B.S.N. '13

Many things led me to choose Samford. I loved the small class sizes and the experienced faculty of CRNAs. Samford also had a wide variety of clinical sites available, which was very important to me because I had the opportunity to learn everything from regional anesthesia to cardiac anesthesia.

—Amanda Long, M.S.N., CRNA '13

From the time of my initial interview, I knew Samford was a special place. The small class sizes allow the development of close relationships between students and faculty, leading to a better educational experience and ties that continue beyond graduation. There are other nursing schools, but Samford was the perfect choice for me.

—Teresa Stanford, D.N.P., F.N.P.-BC '10

Samford University is an Equal Opportunity Institution that complies with applicable law prohibiting discrimination in its educational and employment policies and does not unlawfully discriminate on the basis of race, color, sex, age, disability, veteran status, genetic information, or national or ethnic origin.
The nurse anesthesia program is an on-campus program.

Today, more than 5,000 nurses who've graduated our programs are impacting the lives of others throughout the United States and around the world.

For more than 90 years, Ida V. Moffett School of Nursing has continued Mrs. Moffett's legacy by instilling her unique vision and passion in those called to our profession.

While Ida V. Moffett School of Nursing has experienced significant growth and transformation since its inception, the school's objective remains unchanged: we prepare students to provide exceptional, compassionate, patient-centered care. The school focuses on four foundational pillars, all of which are based on the vision and passion of Mrs. Moffett: academic excellence, compassion, caring and service. It's because of this approach that we are recognized across the country as one of the premier schools of nursing.

In 2015, nurse anesthesia graduates transferred to Samford University.

In Ida V. Moffett School of Nursing, learning extends far outside the classroom. Clinical and practicum experiences play a significant role in the educational foundation of our students. These hands-on experiences prepare students to practice in a variety of roles to meet the health care needs of individuals and families across the lifespan.

From disaster management simulations to inpatient acute care, students participate in extensive clinical experiences in more than 100 sites across the country. In addition to these hands-on experiences, Ida V. Moffett School of Nursing students have access to some of the most advanced simulation technology in the world. Our new facilities include a state-of-the-art simulation center that allows faculty to recreate health care situations that challenge you to utilize your skills and knowledge in a safe setting without putting patients at risk. Simulation experiences prepare you to enter the clinical environment feeling confident in your ability to care for patients and their families. The simulation center is unique to Samford's College of Health Sciences and is unmatched by any other local school of nursing.

At Ida V. Moffett School of Nursing, we prepare students with the compassion, skills and knowledge necessary to deliver exceptional care in a wide variety of settings. As a Christian university, we also believe that we must put the great depth of knowledge and experience in our faculty, staff and students to work making the lives of people better, here at home and in communities around the world.

We put those beliefs into action through numerous outreach programs such as faith community nursing, community involvement and CampUs. Students and faculty also regularly participate in medical mission in Ecuador, Honduras, Haiti, Peru and throughout the United States.
