

**Business Planning  
Pre-requisite / Co-requisite Waiver Form**

To register for Business Planning (Law 610) at Cumberland School of Law, students must have successfully completed Business Organizations (Law 526) or be registered for this course for the same semester in which the student registers for Business Planning.

In appropriate circumstances a student may register for Business Planning without having completed or being registered for Business Organizations PROVIDED the professor gives his/her approval. Because Business Planning assumes knowledge of Business Organizations students who take Business Planning without the required pre-requisite may be at a disadvantage

In order to register for Business Planning without having completed or being registered for Business Organizations a student must:

- (1) sign the form, acknowledging that he/she understands the warning set forth above;
- (2) have the professor sign the form indicating the professor's approval; and
- (3) submit the completed form to the Office of Law Student Records.
