

## **CERTIFICATION IN STERILE PRODUCTS 2: APPLICATION OF THE PRINCIPLES AND THEORY OF ASEPTIC TECHNIQUE**

Dates for 2020:

Event will occur by appointment on Tuesday, December 1st due to COVID-19 pandemic. Participant will come on campus to the McWhorter School of Pharmacy to complete program.

Speakers\*:

**John Arnold, Ph.D., RPh**

McWhorter School of Pharmacy Faculty

\*speaker have no relevant conflict of interest to disclose

1 hours (0.1 CEUs) This is an application-based CPE activity and appropriate for all pharmacists and pharmacy technicians. To obtain CPE credit, the participant must attend entire program and successfully demonstrate proper aseptic technique. Credit will be sent through the CPE Monitor within 30 days following the program. In order to receive Sterile Product Certification with the Alabama State Board of Pharmacy, the participant must also complete the companion program entitled "Certification in Sterile Products 1: Principles and Theory of Aseptic Technique" to demonstrate foundational knowledge in aseptic technique.

ACPE Program numbers:

0002-0000-20-009-L07-P

0002-0000-20-009-L07-T

Approved by the Alabama State Board of Pharmacy for Sterile Products Certification.

Pharmacist Learning Objectives:

Following the event, the participant should be able to:

- Perform relevant calculations in order to prepare compounded sterile preparations (CSPs).
- Demonstrate aseptic technique in the compounding of specific CSPs.

Pharmacy Technician Learning Objectives:

Following the event, the participant should be able to:

- Select the proper compounding supplies necessary to prepare CSPs.
- Demonstrate aseptic technique in the compounding of specific CSPs.

**Cost:** \$225 for pharmacists; \$175 for pharmacy technicians (cost includes registration in Certification in Sterile Products 1: Principles and Theory of Aseptic Technique)

Preregistration is required and there will be no refunds unless cancellation is made 48 hours prior to the events. There is limited seating for these programs
