

Process to Apply for “Samford in D.C.” Program at The Washington Center

- ❑ Student contacts advisor to express interest in internship through The Washington Center (TWC) and learn about internship course options.
- ❑ Student schedules an appointment with Ms. Dora Ditchfield (205-726-2980) in the Career Development Center prior to the Samford TWC deadline to work on the resume and 100-word statement of interest required by TWC.
- ❑ Student meets with Dr. Marissa Grayson (mgrayson@samford.edu) to discuss the combination of classes that can be used to meet total academic hours required for program.
- ❑ Student works through the TWC application process in a timely manner, including 500-word issues paper to accompany their resume and 100-word statement.
- ❑ Once all required application materials submitted to TWC, Dr. Grayson or Ms. Ditchfield approves student to participate in program (this will depend on which one the students lists as Samford’s TWC liaison; either is fine).
- ❑ Once student receives acceptance email:
 - Within a week, student schedules a mock interview with the CDC, either in person or via Zoom.
 - Student reviews “[Virtual Interviewing Tips](#)” video on CDC website.
- ❑ Student contacted by placement representative from TWC to schedule a virtual or phone meeting so s/he can learn more about student’s area of interest.
- ❑ TWC representative sends student’s resume to appropriate organizations, and organizations reach out to schedule phone or video interviews. Multiple interviews may occur within a relatively short time.
- ❑ Student maintains contact with TWC representative, finalizing placement and completing program paperwork as needed.
- ❑ Student attends orientation with Ms. Ditchfield and Dr. Grayson prior to departure, including signing and submitting the “Samford University in D.C. Participant Form” that will be sent to student prior to the orientation.
- ❑ Prior to departure, student works with CDC to create a LinkedIn page and learn how to use it to connect with others and discuss networking, informational interviewing, etc.

Questions? Contact Dora Ditchfield in the Career Development Center at dditchfi@samford.edu or at 205-726-2980.
